A Shattered Nervous System.

FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

MR. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Braceville, Ill., writes: "I had never been sick a day in my life until in 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address,

SITUATION CRITICAL

That Is the Opinion of President McKinley's Advisers.

HELD TWO CABINET MEETINGS.

Maine Court's Report Under Consideration — Unprecedented War Preparations — Spain Officially Notifies Washington That the Maine Explosion Was Internal.

Washington, March 26.—The court of inquiry appointed to investigate the cause of the Maine disaster has reported that the loss of the battleship was due to an outside explosion.

The state department, by direction of the president, has cabled United States Minister Woodford at Madrid to notify the Spanish government of this conclusion. The president and his cabinet advisers held two extended sessions yesterday, at which the report was considered in detail. Members of the cabinet stated after the meeting that the discussion was of grave character and that never since the wrecking of the Maine has the situation seemed so critical.

The Spanish government has cabled officially to Washington that the Spanish naval commission holds the disaster to the Maine to be of internal origin. The government of Spain, it can be stated positively, is not disposed to turn

COMMANDER OF THE FLYING SQUADRON.
Commodore Schley.

back the torpedo flotilla now proceeding from the Canaries, and would be disinclined to consider a suggestion from this government tending to interfere with the disposition by Spain of her own naval forces.

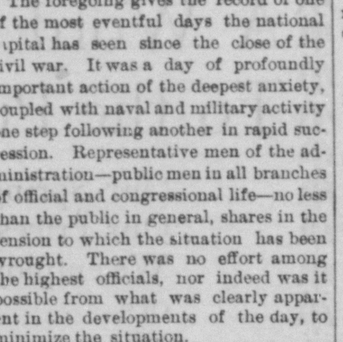

Unprecedented War Preparations.

War preparation on an unprecedented scale is being hurried to completion by the war and navy departments and the country practically is on a war footing.

The foregoing gives the record of one of the most eventful days the national capital has seen since the close of the civil war. It was a day of profoundly important action of the deepest anxiety, coupled with naval and military activity one step following another in rapid succession. Representative men of the administration—public men in all branches of official and congressional life—no less than the public in general, shares in the tension to which the situation has been wrought. There was no effort among the highest officials, nor indeed was it possible from what was clearly apparent in the developments of the day, to minimize the situation.

Viewed in details the findings of the of the court of inquiry was the most vital feature. The results, briefly stated, are that the loss of the Maine was due to an explosion from the outside, the court being unable to fix the responsibility for the explosion. The court does not express an opinion as to the character of the explosion, but the testimony goes to show that it was a powerful submarine mine, the exact character of which is not determined by the testimony, though the belief was expressed that it was a floating submarine mine. There were two explosions, the court finds: the first was from the outside, and that set off one of the smaller magazines. It was this result, expressed in detail and with the precision of a court deeply conscious of its responsibility, together with the evidence on which it was based, that occupied the attention of the cabinet throughout its extended sessions.

All other and lesser subjects gave way to this foremost question. There was no change in the plan of making the report public and transmitting it to congress early next week, accompanied by a brief message from the president.

When a young woman sits down and ponders over her future life, there is one all-important subject which she should not forget. In a day dream she may build castles in the air with a happy home, laughing children and a loving husband in the fore-ground. At that moment she may be facing death. Matrimony and motherhood hold out no happiness to the young woman who suffers from weakness and disease of the distinctly feminine organism. The woman who suffers in this way will be a weak, nervous, sickly, petulant wife, an incapable mother and an unamiable hostess. Not knowing the truth, her acquaintances will not understand that she is deserving of pity rather than reproach.

Any woman may be strong and healthy in a womanly way if she will use the right remedy. Dr. Pierce's Favorite Prescription is the best of all medicines for weak and ailing women. It acts directly on the delicate and important organs that make wifehood and motherhood possible. It makes them strong, healthy and vigorous. It banishes the dangers that surround maternity. It insures a healthy baby and an ample supply of nourishment. Thousands of women who were weak, sickly, nervous invalids, are now healthy, robust wives and competent mothers of healthy children, as the result of the use of this medicine.

Mrs. John M. Conklin, of Patterson, Putnam Co., N. Y., (Box 104), writes: "I am enjoying *perfect* health and have been since I took the last bottle of Dr. Pierce's Favorite Prescription. I had falling of the internal organs, or female weakness, and flowing caused by miscarriage, and was very weak when I commenced taking your medicine."

The unfailing, never-griping *cure* for constipation—Dr. Pierce's Pleasant Pellets.

THE FLYING SQUADRON.

Commodore Schley Will Hoist His Flag on the Brooklyn.

Washington, March 26.—The orders issued by the navy department during the day covered every branch of naval armament. The flying squadron was definitely established, with Commodore W. S. Schley in command. He will hoist his commodore's flag on the flagship Brooklyn next Monday. The squadron is to consist of exactly five ships, no more and no less, despite conjecture as to possible ships that might be added. Those of the squadron will be the crack armored cruiser Brooklyn, the battleships Massachusetts and Texas and the cruisers Columbia and Minneapolis. Other ships which are now or hereafter at Hampton Roads will not be of the flying squadron, but will belong to the north Atlantic station, under Captain Sampson.

COMMODORE SCHLEY'S FLAGSHIP.
The Cruiser Brooklyn.

SPANISH FLOTILLA.

Its Interception Urged by the Highest Naval Authority.

Washington, March 26.—While interest was centered at the white house, the navy and war departments were hurrying forward their work of preparations. The advance of the Spanish torpedo flotilla continued to receive the closest attention of naval officials, and while so far as could be ascertained, no definite line of action was determined upon, the need of intercepting this fleet was urged by the highest naval authorities.

From the standpoint of the Spanish government, this movement was not a menace, having been decided upon many weeks ago. On the contrary, the Spanish government holds that the extensive armament of the Dry Tortugas is a more direct hostile act against Spain than any movement of the flotilla. Instead of stopping the flotilla, the present attitude of Spain tends toward re-enforcing it with other Spanish war vessels, not as a menace but from what the Spanish government feels, is a requirement called for by the existing condition of affiairs.

NAVAL MILITIA.

It Will Be Called Upon to Man the Monitors.

Washington, March 26.—No definite arrangements have been made by the department for the calling of the naval militiamen into service, but such arrangements will be made perhaps by to-night. It is not unlikely that the naval militia of New Jersey will be called upon to assist in manning the old monitors. As to the rumored likelihood that the naval militia of Ohio, Illinois and Michigan would be called into service, navy department officials said that no steps to that end had yet been taken, but the intimation was broadly conveyed that they would be called upon to serve upon the monitors. The department is satisfied that not only the vessels themselves, but also the crews, inexperienced though they may be, will give a good recount of themselves if any emergency should arise that would put them into action.

ONE OF GERMANY'S.

Government Purchases a "Schischau" Torpedoboat.

Washington, March 26.—The navy department was informed by cablegram from Lieutenant Colwell, naval attache to the United States embassy at London, that agents of this government had purchased a "Schischau" torpedoboat that has been constructed for the German government. The new acquisition is of the general type of German torpedo boats and is regarded as a valuable addition to our navy. She is now ready for sea and it is expected that in a few days she will leave for the United States.

She is a 23-knot vessel, and about 150 feet long. While of the same general type as the Rodgers and Foote of the United States navy, she is a trifle larger. At the navy department the precise dimensions of the new boat could not be given.

Flagler Gets Another Allotment.

Washington, March 26.—A few days ago Secretary Alger alloted to General Figler $1,600,000 from the emergency appropriation made by congress to be used by the ordnance bureau in the discretion of General Flagler. This amount although large, was not, in the opinion of General Flagler, sufficient to meet the requirements of the present emergency. After a careful canvass of the situation Secretary Alger yesterday gave General Flagler a liberal additional allotment from the appropriation, but no information could be obtained either from General Flagler or from the secretary's office as to its amount.

Petition for a Pardon.

Columbus, O., March 26.—Representative Otis has been circulating a petition among the members of the legislature, and is said to have about 40 signers, for a pardon for George Hobson, ex-clerk of Hamilton county, serving time for embezzlement.

ORDERED TO HAVANA

Sudden Sailing of the Mangrove From Key West.

TO PROCEED WITH ALL HASTE.

She Is Instructed to Bring Home All Officers Except Consul General Lee. Rear Admiral Sicard on the Court's Findings—How the News Was Received at Key West.

Key West, March 26.—The most significant development that followed the announcement of the court's report—a development known to but few—was the sudden sailing of the lighthouse tender Mangrove for Havana. The Mangrove was lying quietly at the dock loading buoys, when orders came last night for her to proceed with all haste to Havana and to take on board all the American officials in that city with the exception of Consul General Lee.

It is feared here that the knowledge of the court's report has excited Havana population and brought the anti-American sentiment to a climax.

How the Courts Finding Was Received.

The news that the court of inquiry had found the Maine was blown up by submarine mine created intense excitement here. It was read by eager crowds, which includes Rear Admiral Sicard, elderly captains and young cadets. As frequently stated in these dispatches most of the naval officers at Key West have held to the opinion, shared by all the officers of the Maine that the warship was blown up by external means. The minority, who, previously expressed the conviction that the court would be unable to determine the cause, was hard to find. All were glad to know that the Maines fate was not due to the negligence of her own officers.

Officers of high rank are still reticent. Rear Admiral Sicard, however, said: "The court of inquiry brought in findings according to what its members believed. Nothing could have made them do otherwise If they had been able to fix the responsibility I feel sure they would not have shirked this duty."

The attention of Rear Admiral Sicard was drawn to the fact that Spain has officially denied that Havana harbor was mined.

He replied: "If Havana harbor were mine I should certainly have mined it. The water there is especially suitable to such a method of defense. Spain's denial had nothing to do with the court of inquiry. I should not believe a statement that Havana harbor were not mined. The court has not yet been dissolved. It is barely possible that more work may be required of it; but this is not probable.

"The court of inquiry is composed of splendid men. I am greatly satisfied with their work. I hardly suppose much excitement will be caused by the announcement of the verdict, as I am under the impression that 99 per cent of our own people were already convinced that the Maine was blown up externally; and I scarcely think their ideas would have changed even if the court had reported otherwise."

On the possibility of arbitration, Rear Admiral Sicard said: "The Maine case is nothing in comparison with the Alabama claims. Then we were opposed to a powerful commercial rival, but now we are dealing with Spain."

YOUNG GIRL SUICIDES.

Her Mother Chastized Her for Keeping Objectionable Company.

Columbus, March 26.—Lotta Gillespie, a young girl of this place suicided by taking two ounces of laudnum. The young girl had been chastized by her mother for keeping company with another girl. She went to a drugstore, and bought the poison. She said her mother wanted it to poison mice. She stopped in at a neighbor's, put the laudnum in a cup of water, drank it and started for home. On arriving at home she said she had taken the poison. A physician was summoned and tried to get her to take an emetic. She refused for some time, but finally did so. The drug had done its work, however, and she died.

STRIKE AVERTED.

Burns Succeeds In Settling the Troubles of the Windowglass People.

Pittsburg, March 26.—The threatened strike of the American Windowglass Workers' association has been averted. President Simon Burns yesterday having successfuly carried through his contention in the Indiana factory trouble with the United Glass company, the strike at the Orestes factory has been declared off and Folse, the objectionable man, together with the other employes, will return to work. This decision was reoched last evening after a harmonious conference between Mr. Burns, George L. Cake, president of the flatteners' league and J. G. Sayers of Anderson, Ind., representing the manufacturers. The factory will resume operations as soon as it can be put in shape.

EXTRA SESSION.

Bradley Intimates He Will Call One In Case of War.

Frankfort, Ky., March 26.—It is rumored here that Governor Bradley, before the late adjournment of the legislature, held a conference with Speaker Beckham and other legislators, and intimated that in case of war, which he believes is nearly certain, an extra session of the legislature would be called. The extra session, it is presumed, would be called to make provision for better equipment of the state troops.

BRADSTREET'S VIEWS.

Talks on the Present Condition of Trade and Its Outlook.

New York, March 26.—Bradstreets to-day says the favorable features of the week in distributive trade have been the reports coming, with few exceptions, from all parts of the west and northwest and marred only by the check to business and shipments caused by heavy rains and high water in the Ohio valley. But the two industries, cotton and woolen, most complaining are those in which conditions other than foreign complications have for some time past been working towards depression. The coarse cotton goods situation does not improve in any way and there are declines in print cloths to a still lower record quotation.

While some woolen goods mills have already booked good orders the business done as a whole, has not been up to anticipations. Raw wool, however, does not reflect the rather unsatisfactory condition in the manufactured product in lower quotations. The condition of the iron and steel trade is one which excites satisfaction and almost surprise. From a number of widely separated sections the report comes of unprecedented activity in nearly all branches of the trade. The price situation this week is notable in showing decreases more numerous than for some time past. This, of course, includes many lines in which speculation plays a prominent part.

LEITER AND ARMOUR.

Truce Reported to Have Been Entered Into Between Them.

Chicago, March 26.—A rumor was current on the board of trade to the effect that Armour and Leiter had patched up a truce in the wheat pit to which P. B. Wear was also a party. Mr. Leiter said:

"I will neither deny nor confirm the rumor of any amicable arrangement between myself, Armour and Wear. I will not discuss the matter."

Mr. Armor said: "I have nothing to say about any agreement. The reason why wheat is not coming here from the northwest is that the spread between the markets there and here will not allow it to come. The advance in railroad rates has made it impossible to work wheat on the old differences. When the markets get right you will see the wheat come if it is in the country."

Mr. Weare also denied knowledge of any combination and if market action is evidence the story was discredited by the trade.

SOUTHALL TIME CHECKS.

So Far Nearly $400,000 Worth Have Been Discovered.

St. Paul, March 26.—James H. Southall, accused of indefinitely large transactions in bogus time checks, continues an inmate of the county jail. No bail has been offered. The estimate of the total volume of checks is still $500,000 or something less. Reports are coming in and so far the total is less than $400,000, so far as the issues have been disclosed. It is said that the government has issued no time checks such as those negotiated by Southall since 1890, and all bearing any date later than that year are declared to be bogus.

PENSION DEFICIENCY.

Secretary of Interior Sends an Estimate to the House.

Washington, March 26.—The secretary of the interior has sent to the house an estimate calling for the appropriation of over $8,000,000 to meet a deficiency in the pension funds. Of this amount $2,000,000 is credited to the lack of last year's appropriations and the other $6,000,000 to large increases, restorations and new pensions granted. This brings estimates so far submitted for incorporation into the general deficiency bill to about $14,000,000.

FLOODS.

Hundreds of People Homeless at Dayton and Zanesville, O.

Cincinnati, March 26. — The Ohio river is nearly 54 feet and rising, with more water reported coming from above. As far as the loss of life and property is concerned, that is all over in the interior. But want and desolation is left in track of the storm. At Dayton and Zanesville hundreds of families are homeless. Much destruction of property is reported from Indiana. All streams are receding.

Industrial School Burned.

Waukesha Wis., March 26.—Fire last night destroyed the Wisconsin Industrial School for Boys. The 350 inmates escaped without injury and there was much excitement. The loss is $75,000.

Twenty Miners Killed.

Brussels, March 26.—The firing of a dynamite cartridge in the Hazard coal mines near Liege yesterday caused an explosion of coal gas. Twenty miners were killed.

WIRE WHISPERS.

United States treasury cash balances, $224,474,672; gold reserve, $172,219,161.

Yale college has won the fourth annual intercollegiate debate between Yale and Princeton.

Pittsburg will give the remains of Lieutenant F. W. Jenkins, who lost his life in the Maine disaster, a public funeral.

The total amount of cash received at the state department for Cuban relief is $30,048, of which President McKinley gave $5,000.

The Kansas Central M. E. conference by a vote of 53 to 18 expressed its opposition to equal lay representation in the general conference.

Professor Brooks of Smith observatory, Geneva, N. Y., reports that he has observed the new comet recently discovered by the Lick observatory.

Three hundred and fifty students of Lafayette college at Easton, Pa. have telegraphed a tender of their services to President McKinley in case of war.

JUDGE DOWNEY DEAD

Death Occurred at Rising Sun. Caused By Paralysis.

MRS. EMBERLIN ROASTED ALIVE

Eli Middleton Dies While Kneeling In Prayer—Charles Gregory Fined $100. Coroner Wanted—Dr. A. W. Sheet Dead—Laurel, Ind., Cut Off by Floods—Valve Blew Out.

Rising Sun, Ind., March 26.—Judge A. C. Downey died at his residence last evening, aged 81 years. About two months ago he suffered a stroke of paralysis, which was repeated yesterday afternoon. He was on the supreme bench of Indiana from 1873 to 1879, and is the oldest Knight Templar in Indiana. The funeral will be conducted by the officers of the grand lodge of Masons.

COLONEL MILLIGAN.

Retires From the Bar and Reads an Affecting Farewell Address.

Huntington, Ind., March 26.—Colonel L. P. Milligan, appeared in court and announced his retirement from the bar. Colonel Milligan had been in active practice 63 years and is 86 years old. He read a farewell address to the bar, recounting his experiences, and especially of the trying times during the war when he was arrested, imprisoned, tried and sentenced to be hanged for treason, and his life was saved by United States supreme court decision. Colonel Milligan was charged with being a member of the Knights of the Golden Circle. While delivering his farewell address he broke down several times, and the scene was both unusual and affecting.

CLOCK STORY.

Had Not Run For Ten Years When Suddenly It Starts.

Chesterfield, Ind., March 26.—Mrs. Catherine Gold has an old, broken worn out clock, almost a century old, that has not run for 10 years, stopping at 1:55 p. m. While the family were seated about the large fireplace, the old clock suddenly, without warning, began to tick and when the hour hand reached 12, struck twice, after which it ran 10 minutes and stopped as suddenly as it started. Mrs. Gold is very much alarmed over the occurrence, and thinks it an omen of ill-luck or death. Mrs. Gold's husband died three weeks ago.

CUT OFF BY FLOODS.

Big Four Railroad Badly Damaged Near Laurel.

Laurel, Ind., March 26.—This place has been cut off from the world by high water nearly four days. The Big Four railway through this valley has been seriously damaged by floods. A large force of men was set to work repairing yesterday, but traffic may be delayed several days. Laurel has had no mail since last Tuesday evening. Serious damage has been done to crops, roads and bridges.

SAFETY VALVE BLEW OUT.

Portion of a Furniture Factory's Roof Carried Away.

Michigan City, Ind., March 26.—The safety valve attached to one of the boilers furnishing motive power for the Hitchcock chair works blew out, tearing away a section of the roof in its flight. The building quickly filled with steam, and many of the workmen only escaped by rapid flight. August Sudrow, fireman, was seriously injured about the eyes, and Mr. Horkins was disabled by flying debris.

ROASTED ALIVE.

Gasoline Stove Explodes and Burns Mrs. Emberlin to a Crisp.

South Bend, Ind., March 26.—Mrs. Alexander Emberlin, while working with a gasoline stove yesterday, was burned to a crisp by an explosion, scarcely an inch of her body not being roasted.

Dr. A. W. Street Dead.

Whiting, Ind., March 26.—Dr. A. W. Street, who organized the Alaskan Gold Mining company here is dead at his home. The doctor accompanied the expedition to Seattle, where he was taken with a fever and compelled to return. Dr. Street's party is at Dawson City. He was prominent in political and professional circles in Lake county and leaves a widow.

Charles Gregory Fined $100.

English, Ind., March 26.—Charles Gregory, accused of attempting to assassinate Joseph Mathers, was found guilty by the jury and fined $100 and six months in jail. Mathers lay at the point of death for several weeks. This case was preceded by one where two men were sent to jail for 30 days for stealing 12 bushels of clover seed.

Spencer Gets a New Trial.

English, Ind., March 26.—Ex-Trustee Willoughby Spencer, who was found guilty of embezzlement last week, has been granted a new hearing. It was proven that one of his jurors had prosecuted him in the fraternal lodge, which expelled him.

Coroner Wanted.

Auburn, Ind., March 26.—Dr. Hughes, the coroner, having abandoned his office and removed to Lagrange, the county commissioners can find no one willing to assume the duties of the vacated position. The office is not a lucrative one in this county.

Double Headed Chicken.

English, Ind., March 26. — Robert Brumfield has a chicken with two necks and heads. From the base of the neck, where they connect, the members appear perfect, and the little creature eats equally with each, picking alternately and never swallowing with both at once.

Royal makes the food pure, wholesome and delicious.

ROYAL

BAKING POWDER

Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

Enlistments Progressing Satisfactorily.

Washington, March 26.—The enlistment of men for the naval service is progressing satisfactorily at the Washington navyyard, and a good class of men is being obtained. Heretofore the enlistments have been confined to ratings of machinists, seamen and ordinary seamen. On the recommendation of Lieutenant J. N. Robinson, the recruiting officer in charge of the rendezvous, the navy department has authorized him to include the enlistment of coal passers and firemen, so that now the enlistments comprehend every rating of the enlisted service.

Strengthening Fortifications of Porto Rico.

Washington, March 26.—Word has reached the navy department officials that the Spanish authorities have taken steps to supplement the existing fortifications at San Juan de Puerto Rico, the main port of the island of Porto Rico. The news is regarded as significant. Porto Rico is the only other possession which belongs to the Spanish government on this hemisphere besides Cuba. The officials of the department, while acknowledging information of foregoing character has reached them, are yet very chary about imparting any of the details to the press.

Weather.

Indiana and Ohio—Fair and warmer.

MARKET QUOTATIONS.

SITUATION CRITICAL

That Is the Opinion of President McKinley's Advisers.

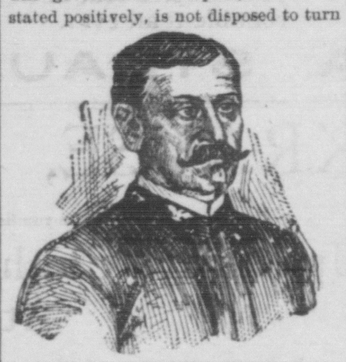

HELD TWO CABINET MEETINGS.

Maine Court's Report Under Consideration — Unprecedented War Preparations — Spain Officially Notifies Washington That the Maine Explosion Was Internal.

Washington, March 26.—The court of inquiry appointed to investigate the cause of the Maine disaster has reported that the loss of the battleship was due to an outside explosion.

The state department, by direction of the president, has cabled United States Minister Woodford at Madrid to notify the Spanish government of this conclusion. The president and his cabinet advisers held two extended sessions yesterday, at which the report was considered in detail. Members of the cabinet stated after the meeting that the discussion was of grave character and that never since the wrecking of the Maine has the situation seemed so critical.

The Spanish government has cabled officially to Washington that the Spanish naval commission holds the disaster to the Maine to be of internal origin. The government of Spain, it can be stated positively, is not disposed to turn

COMMANDER OF THE FLYING SQUADRON.
Commodore Schley.

back the torpedo flotilla now proceeding from the Canaries, and would be disinclined to consider a suggestion from this government tending to interfere with the disposition by Spain of her own naval forces.

Unprecedented War Preparations.

War preparation on an unprecedented scale is being hurried to completion by the war and navy departments and the country practically is on a war footing.

The foregoing gives the record of one of the most eventful days the national capital has seen since the close of the civil war. It was a day of profoundly important action of the deepest anxiety, coupled with naval and military activity one step following another in rapid succession. Representative men of the administration—public men in all branches of official and congressional life—no less than the public in general, shares in the tension to which the situation has been wrought. There was no effort among the highest officials, nor indeed was it possible from what was clearly apparent in the developments of the day, to minimize the situation.

Viewed in details the findings of the of the court of inquiry was the most vital feature. The results, briefly stated, are that the loss of the Maine was due to an explosion from the outside, the court being unable to fix the responsibility for the explosion. The court does not express an opinion as to the character of the explosion, but the testimony goes to show that it was a powerful submarine mine, the exact character of which is not determined by the testimony, though the belief was expressed that it was a floating submarine mine. There were two explosions, court finds: the first was from the outside, and that set off one of the smaller magazines. It was this result, expressed in detail and with the precision of a court deeply conscious of its responsibility, together with the evidence on which it was based, that occupied the attention of the cabinet throughout its extended sessions.

All other and lesser subjects gave way to this foremost question. There was no change in the plan of making the report public and transmitting it to congress early next week, accompanied by a brief message from the president.

THE FLYING SQUADRON.

Commodore Schley Will Hoist His Flag on the Brooklyn.

Washington, March 26.—The orders issued by the navy department during the day covered every branch of naval armament. The flying squadron was definitely established, with Commodore W. S. Schley in command. He will hoist his commodore's flag on the flag-

COMMODORE SCHLEY'S FLAGSHIP.
The Cruiser Brooklyn.

ship Brooklyn next Monday. The squadron is to consist of exactly five ships, no more and no less, despite conjecture as to possible ships that might be added. Those of the squadron will be the crack armored cruiser Brooklyn, the battleships Massachusetts and Texas and the cruisers Columbia and Minneapolis. Other ships which are now or hereafter at Hampton Roads will not be of the flying squadron, but will belong to the north Atlantic station, under Captain Sampson.

SPANISH FLOTILLA.

Its Interception Urged by the Highest Naval Authority.

Washington, March 26.—While interest was centered at the white house, the navy and war departments were hurrying forward their work of preparations. The advance of the Spanish torpedo flotilla continued to receive the closest attention of naval officials, and while so far as could be ascertained, no definite line of action was determined upon, the need of intercepting this fleet was urged by the highest naval authorities.

From the standpoint of the Spanish government, this movement was not a menace, having been decided upon many weeks ago. On the contrary, the Spanish government holds that the extensive armament of the Dry Tortugas is a more direct hostile act against Spain than any movement of the flotilla. Instead of stopping the flotilla, the present attitude of Spain tends toward re-enforcing it with other Spanish war vessels, not as a menace but from what the Spanish government feels, is a requirement called for by the existing condition of affiairs.

NAVAL MILITIA.

It Will Be Called Upon to Man the Monitors.

Washington, March 26.—No definite arrangements have been made by the department for the calling of the naval militiamen into service, but such arrangements will be made perhaps by to-night. It is not unlikely that the naval militia of New Jersey will be called upon to assist in manning the old monitors. As to the rumored likelihood that the naval militia of Ohio, Illinois and Michigan would be called into service, navy department officials said that no steps to that end had yet been taken, but the intimation was broadly conveyed that they would be called upon to serve upon the monitors. The department is satisfied that not only the vessels themselves, but also the crews, inexperienced though they may be, will give a good recount of themselves if any emergency should arise that would put them into action.

ONE OF GERMANY'S.

Government Purchases a "Schischau" Torpedoboat.

Washington, March 26.—The navy department was informed by cablegram from Lieutenant Colwell, naval attache to the United States embassy at London, that agents of this government had purchased a "Schischau" torpedoboat that has been constructed for the German government. The new acquisition is of the general type of German torpedo boats and is regarded as a valuable addition to our navy. She is now ready for sea and it is expected that in a few days she will leave for the United States.

She is a 23-knot vessel, and about 150 feet long. While of the same general type as the Rodgers and Foote of the United States navy, she is a trifle larger. At the navy department the precise dimensions of the new boat could not be given.

Flagler Gets Another Allotment.

Washington, March 26.—A few days ago Secretary Alger alloted to General Flgler $1,600,000 from the emergency appropriation made by congress to be used by the ordnance bureau in the discretion of General Flagler. This amount although large, was not, in the opinion of General Flagler, sufficient to meet the requirements of the present emergency. After a careful canvass of the situation Secretary Alger yesterday gave General Flagler a liberal additional allotment from the appropriation, but no information could be obtained either from General Flagler or from the secretary's office as to its amount.

Petition for a Pardon.

Columbus, O., March 26.—Representative Otis has been circulating a petition among the members of the legislature, and is said to have about 40 signers, for a pardon for George Hobson, ex-clerk of Hamilton county, serving time for embezzlement.

When a young woman sits down and ponders over her future life, there is one all-important subject which she should not forget. In a day dream she may build castles in the air with a happy home, laughing children and a loving husband in the fore-ground. At that moment she may be facing death. Matrimony and motherhood hold out no happiness to the young woman who suffers from weakness and disease of the distinctly feminine organism. The woman who suffers in this way will be a weak, nervous, sickly, petulant wife, an incapable mother and an unamiable hostess. Not knowing the truth, her acquaintances will not understand that she is deserving of pity rather than reproach.

Any woman may be strong and healthy in a womanly way if she will use the right remedy. Dr. Pierce's Favorite Prescription is the best of all medicines for weak and ailing women. It acts directly on the delicate and important organs that make wifehood and motherhood possible. It makes them strong, healthy and vigorous. It banishes the dangers that surround maternity. It insures a healthy baby and an ample supply of nourishment. Thousands of women who were weak, sickly, nervous invalids, are now healthy, robust wives and competent mothers of healthy children, as the result of the use of this medicine.

Mrs. John M. Conklin, of Patterson, Putnam Co., N. Y., (Box 104), writes: "I am enjoying *perfect* health and have been since I took the last bottle of Dr. Pierce's Favorite Prescription. I had failing of the internal organs, or female weakness, and flowing caused by miscarriage, and was very weak when I commenced taking your medicine."

The unfailing, never-griping *cure* for constipation—Dr. Pierce's Pleasant Pellets.

ORDERED TO HAVANA

Sudden Sailing of the Mangrove From Key West.

TO PROCEED WITH ALL HASTE.

She Is Instructed to Bring Home All Officers Except Consul General Lee. Rear Admiral Sicard on the Court's Findings—How the News Was Received at Key West.

Key West, March 26.—The most significant development that followed the announcement of the court's report—a development known to but few—was the sudden sailing of the lighthouse tender Mangrove for Havana. The Mangrove was lying quietly at the dock loading buoys, when orders came last night for her to proceed with all haste to Havana and to take on board all the American officials in that city with the exception of Consul General Lee.

It is feared here that the knowledge of the court's report has excited Havana population and brought the anti-American sentiment to a climax.

How the Courts Finding Was Received.

The news that the court of inquiry had found the Maine was blown up by submarine mine created intense excitement here. It was read by eager crowds, which includes Rear Admiral Sicard, elderly captains and young cadets. As frequently stated in these dispatches most of the naval officers at Key West have held to the opinion, shared by all the officers of the Maine that the warship was blown up by external means. The minority, who, previously expressed the conviction that the court would be unable to determine the cause, was hard to find. All were glad to know that the Maines fate was not due to the negligence of her own officers.

Officers of high rank are still reticent. Rear Admiral Sicard, however, said: "The court of inquiry brought in findings according to what its members believed. Nothing could have made them do otherwise. If they had been able to fix the responsibility I feel sure they would not have shirked this duty."

The attention of Rear Admiral Sicard was drawn to the fact that Spain has officially denied that Havana harbor was mined.

He replied: "If Havana harbor were mine I should certainly have mined it. The water there is especially suitable to such a method of defense. Spain's denial had nothing to do with the court of inquiry. I should not believe a statement that Havana harbor were not mined. The court has not yet been dissolved. It is barely possible that more work may be required of it; but this is not probable.

"The court of inquiry is composed of splendid men. I am greatly satisfied with their work. I hardly suppose much excitement will be caused by the announcement of the verdict, as I am under the impression that 99 per cent of our own people were already convinced that the Maine was blown up externally; and I scarcely think their ideas would have changed even if the court had reported otherwise."

On the possibility of arbitration, Rear Admiral Sicard said: "The Maine case is nothing in comparison with the Alabama claims. Then we were opposed to a powerful commercial rival, but now we are dealing with Spain."

YOUNG GIRL SUICIDES.

Her Mother Chastized Her for Keeping Objectionable Company.

Columbus, March 26.—Lotta Gillespie, a young girl of this place suicided by taking two ounces of laudnum. The young girl had been chastized by her mother for keeping company with another girl. She went to a drugstore, and bought the poison. She said her mother wanted it to poison mice. She stopped in at a neighbor's, put the laudnum in a cup of water, drank it and started for home. On arriving at home she said she had taken the poison. A physician was summoned and tried to get her to take an emetic. She refused for some time, but finally did so. The drug had done its work, however, and she died.

STRIKE AVERTED.

Burns Succeeds In Settling the Troubles of the Windowglass People.

Pittsburg, March 26.—The threatened strike of the American Windowglass Workers' association has been averted. President Simon Burns yesterday having successfully carried through his contention in the Indiana factory trouble with the United Glass company, the strike at the Orestes factory has been declared off and Folse, the objectionable man, together with the other employes, will return to work. This decision was reoched last evening after a harmonious conference between Mr. Burns, George L. Cake, president of the flatteners' league and J. G. Sayers of Anderson, Ind., representing the manufacturers. The factory will resume operations as soon as it can be put in shape.

EXTRA SESSION.

Bradley Intimates He Will Call One In Case of War.

Frankfort, Ky., March 26.—It is rumored here that Governor Bradley, before the late adjournment of the legislature, held a conference with Speaker Beckham and other legislators, and intimated that in case of war, which he believes is nearly certain, an extra session of the legislature would be called. The extra session, it is presumed, would be called to make provision for better equipment of the state troops.

BRADSTREET'S VIEWS.

Talks on the Present Condition of Trade and Its Outlook.

New York, March 26.—Bradstreets to-day says the favorable features of the week in distributive trade have been the reports coming, with few exceptions, from all parts of the west and northwest and marred only by the check to business and shipments caused by heavy rains and high water in the Ohio valley. But the two industries, cotton and woolen, most complaining are those in which conditions other than foreign complications have for some time past been working towards depression. The coarse cotton goods situation does not improve in any way and there are declines in print cloths to a still lower record quotation.

While some woolen goods mills have already booked good orders the business done as a whole, has not been up to anticipations. Raw wool, however, does not reflect the rather unsatisfactory condition in the manufactured product in lower quotations. The condition of the iron and steel trade is one which excites satisfaction and almost surprise. From a number of widely separated sections the report comes of unprecedented activity in nearly all branches of the trade. The price situation this week is notable in showing decreases more numerous than for some time past. This, of course, includes many lines in which speculation plays a prominent part.

LEITER AND ARMOUR.

Truce Reported to Have Been Entered Into Between Them.

Chicago, March 26.—A rumor was current on the board of trade to the effect that Armour and Leiter had patched up a truce in the wheat pit to which P. B. Wear was also a party. Mr. Leiter said:

"I will neither deny nor confirm the rumor of any amicable arrangement between myself, Armour and Wear. I will not discuss the matter."

Mr. Armor said: "I have nothing to say about any agreement. The reason why wheat is not coming here from the northwest is that the spread between the markets there and here will not allow it to come. The advance in railroad rates has made it impossible to work wheat on the old differences. When the markets get right you will see the wheat come if it is in the country."

Mr. Weare also denied knowledge of any combination and if market action is evidence the story was discredited by the trade.

SOUTHALL TIME CHECKS.

So Far Nearly $400,000 Worth Have Been Discovered.

St. Paul, March 26.—James H. Southall, accused of indefinitely large transactions in bogus time checks, continues an inmate of the county jail. No bail has been offered. The estimate of the total volume of checks is still $500,000 or something less. Reports are coming in and so far the total is less than $400,000, so far as the issues have been disclosed. It is said that the government has issued no time checks such as those negotiated by Southall since 1890, and all bearing any date later than that year are declared to be bogus.

PENSION DEFICIENCY.

Secretary of Interior Sends an Estimate to the House.

Washington, March 26.—The secretary of the interior has sent to the house an estimate calling for the appropriation of over $8,000,000 to meet a deficiency in the pension funds. Of this amount $2,000,000 is credited to the lack of last year's appropriations and the other $6,000,000 to large increases, restorations and new pensions granted. This brings estimates so far submitted for incorporation into the general deficiency bill to about $14,000,000.

FLOODS.

Hundreds of People Homeless at Dayton and Zanesville, O.

Cincinnati, March 26. — The Ohio river is nearly 54 feet and rising, with more water reported coming from above. As far as the loss of life and property is concerned, that is all over in the interior. But want and desolation is left in track of the storm. At Dayton and Zanesville hundreds of families are homeless. Much destruction of property is reported from Indiana. All streams are receding.

Industrial School Burned.

Waukesha Wis., March 26.—Fire last night destroyed the Wisconsin Industrial School for Boys. The 350 inmates escaped without injury and there was much excitement. The loss is $75,000.

Twenty Miners Killed.

Brussels, March 26.—The firing of a dynamite cartridge in the Hazard coal mines near Liege yesterday caused an explosion of coal gas. Twenty miners were killed.

WIRE WHISPERS.

United States treasury cash balances, $224,474,672; gold reserve, $172,219,161.

Yale college has won the fourth annual intercollegiate debate between Yale and Princeton.

Pittsburg will give the remains of Lieutenant F. W. Jenkins, who lost his life in the Maine disaster, a public funeral.

The total amount of cash received at the state department for Cuban relief is $30,048, of which President McKinley gave $5,000.

The Kansas Central M. E. conference by a vote of 53 to 18 expressed its opposition to equal lay representation in the general conference.

Professor Brooks of Smith observatory, Geneva, N. Y., reports that he has observed the new comet recently discovered by the Lick observatory.

Three hundred and fifty students of Lafayette college at Easton, Pa. have telegraphed a tender of their services to President McKinley in case of war.

JUDGE DOWNEY DEAD

Death Occurred at Rising Sun. Caused By Paralysis.

MRS. EMBERLIN ROASTED ALIVE

Eli Middleton Dies While Kneeling In Prayer—Charles Gregory Fined $100. Coroner Wanted—Dr. A. W. Sheet Dead—Laurel, Ind., Cut Off by Floods—Valve Blew Out.

Rising Sun, Ind., March 26.—Judge A. C. Downey died at his residence last evening, aged 81 years. About two months ago he suffered a stroke of paralysis, which was repeated yesterday afternoon. He was on the supreme bench of Indiana from 1873 to 1879, and is the oldest Knight Templar in Indiana. The funeral will be conducted by the officers of the grand lodge of Masons.

COLONEL MILLIGAN.

Retires From the Bar and Reads an Affecting Farewell Address.

Huntington, Ind., March 26.—Colonel L. P. Milligan, appeared in court and announced his retirement from the bar. Colonel Milligan had been in active practice 63 years and is 86 years old. He read a farewell address to the bar, recounting his experiences, and especially of the trying times during the war when he was arrested, imprisoned, tried and sentenced to be hanged for treason, and his life was saved by United States supreme court decision. Colonel Milligan was charged with being a member of the Knights of the Golden Circle. While delivering his farewell address he broke down several times, and the scene was both unusual and affecting.

CLOCK STORY.

Had Not Run For Ten Years When Suddenly It Starts.

Chesterfield, Ind., March 26.—Mrs. Catherine Gold has an old, broken worn out clock, almost a century old, that has not run for 10 years, stopping at 1:55 p. m. While the family were seated about the large fireplace, the old clock suddenly, without warning, began to tick and when the hour hand reached 12, struck twice, after which it ran 10 minutes and stopped as suddenly as it started. Mrs. Gold is very much alarmed over the occurrence, and thinks it an omen of ill-luck or death. Mrs. Gold's husband died three weeks ago.

CUT OFF BY FLOODS.

Big Four Railroad Badly Damaged Near Laurel.

Laurel, Ind., March 26.—This place has been cut off from the world by high water nearly four days. The Big Four railway through this valley has been seriously damaged by floods. A large force of men was set to work repairing yesterday, but traffic may be delayed several days. Laurel has had no mail since last Tuesday evening. Serious damage has been done to crops, roads and bridges.

SAFETY VALVE BLEW OUT.

Portion of a Furniture Factory's Roof Carried Away.

Michigan City, Ind., March 26.—The safety valve attached to one of the boilers furnishing motive power for the Hitchcock chair works blew out, tearing away a section of the roof in its flight. The building quickly filled with steam, and many of the workmen only escaped by rapid flight. August Sudrow, fireman, was seriously injured about the eyes, and Mr. Horkins was disabled by flying debris.

ROASTED ALIVE.

Gasoline Stove Explodes and Burns Mrs. Emberlin to a Crisp.

South Bend, Ind., March 26.—Mrs. Alexander Emberlin, while working with a gasoline stove yesterday, was burned to a crisp by an explosion, scarcely an inch of her body not being roasted.

Dr. A. W. Street Dead.

Whiting, Ind., March 26.—Dr. A. W. Street, who organized the Alaskan Gold Mining company here is dead at his home. The doctor accompanied the expedition to Seattle, where he was taken with a fever and compelled to return. Dr. Street's party is at Dawson City. He was prominent in political and professional circles in Lake county and leaves a widow.

Charles Gregory Fined $100.

English, Ind., March 26.—Charles Gregory, accused of attempting to assassinate Joseph Mathers, was found guilty by the jury and fined $100 and six months in jail. Mathers lay at the point of death for several weeks. This case was preceded by one where two men were sent to jail for 30 days for stealing 12 bushels of clover seed.

Spencer Gets a New Trial.

English, Ind., March 26.—Ex-Trustee Willoughby Spencer, who was found guilty of embezzlement last week, has been granted a new hearing. It was proven that one of his jurors had prosecuted him in the fraternal lodge, which expelled him.

Coroner Wanted.

Auburn, Ind., March 26.—Dr. Hughes, the coroner, having abandoned his office and removed to Lagrange, the county commissioners can find no one willing to assume the duties of the vacated position. The office is not a lucrative one in this county.

Double Headed Chicken.

English, Ind., March 26. — Robert Brumfield has a chicken with two necks and heads. From the base of the neck, where they connect, the members appear perfect, and the little creature eats equally with each, picking alternately and never swallowing with both at once.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

Enlistments Progressing Satisfactorily.

Washington, March 26.—The enlistment of men for the naval service is progressing satisfactorily at the Washington navyyard, and a good class of men is being obtained. Heretofore the enlistments have been confined to ratings of machinists, seamen and ordinary seamen. On the recommendation of Lieutenant J. N. Robinson, the recruiting officer in charge of the rendezvous, the navy department has authorized him to include the enlistment of coal passers and firemen, so that now the enlistments comprehend every rating of the enlisted service.

Strengthening Fortifications of Porto Rico.

Washington, March 26.—Word has reached the navy department officials that the Spanish authorities have taken steps to supplement the existing fortifications at San Juan de Puerto Rico, the main port of the island of Porto Rico. The news is regarded as significant. Porto Rico is the only other possession which belongs to the Spanish government on this hemisphere besides Cuba. The officials of the department, while acknowledging information of foregoing character has reached them, are yet very chary about imparting any of the details to the press.

Weather.

Indiana and Ohio—Fair and warmer.

A Mother's Misery.

The story of this woman is the every day history of thousands who are suffering as she did; who can be cured as she was; who will thank her for showing them the way to good health.

The most remarkable thing about Mrs. Nellie J. Lord, of Strafford Corner, N. H., is that she is alive to-day.

No one, perhaps, is more surprised at this than Mrs. Lord herself. She looks back at the day when she stood on the verge of death and shudders. She looks ahead at a life of happiness with her children, her husband and her home with a joy that only a mother can realize.

Mrs. Lord is the mother of three children, two of whom are twins; until the twins came nothing marred the joy of her life.

Then she was attacked with heart failure and for a year was unable to attend to the ordinary duties of the home. In describing her own experience Mrs. Lord says:

"I had heart failure so bad I was often thought to be dead.

"With this I had neuralgia of the stomach so bad it was necessary to give me morphine to deaden the pain.

"Sometimes the doctors gave me temporary relief, but in the end it seemed as if my suffering was multiplied.

"Medicine did me no good and was but an aggravation.

"I was so thin my nearest friends failed to recognize me.

"No one thought I would live.

"I was in despair and thought that my days were numbered. My mother brought me Dr. Williams' Pink Pills for Pale People and the first box made me feel better. I continued the treatment and to-day I am well.

"When I commenced to take the pills I weighed 120 pounds; now I weigh 146 and feel that my recovery is permanent.

"I owe my happiness and my health to Dr. Williams' Pink Pills. My husband was benefited by them. I have recommended them to many of my friends and will be glad if any word of mine will direct others to the road of good health."

Dr. Williams' Pink Pills for Pale People have cured many cases of almost similar nature.

The vital elements in Mrs. Lord's blood were deficient. The haemoglobin was exhausted. She was unfit for the strain she was compelled to undergo. Her nervous system was shattered and her vitality dropped below the danger point.

A collapse was inevitable.

Dr. Williams' Pink Pills cured her by supplying the lacking constituents of health by filling the veins with blood rich in the requisite element of life. The heart resumed its normal action; the nervous system was restored to a state of harmony, and the neuralgic affection disappeared.

Dr. Williams' Pink Pills are sold by druggists everywhere, who believe them to be one of the most efficacious medicines the century has produced.

SINCE the primary Thursday a few Seymour democrats are engaged chiefly in pouring oil on the troubled waters.

A meeting of the democrats of Seymour and Jackson township is announced for next Monday evening at Armory Hall.

THE speech of Senator Thurston on the Cuban situation will be remembered as one of the most notable speeches made on that question.

Dun's Review of last week quotes the price of cash wheat at 1.04½ against 81¼ at the corresponding date of last year; corn .35½ against 30½ at the corresponding date of last year; lard, $5.40 against $4 50 last year; mess pork, $10.25 against $9 last year, while in other farm products there is an equally striking advance. Yet there has been no free and unlimited coinage of silver meantime.

THE democrats of Van Buren township, Brown county, held a meeting the other day and passed a resolution calling on Congressman Griffith for an explanation of his failure to vote for the Teller resolution. They don't seem to have read his letter which plainly stated that when that matter was voted on our congressman was engaged in a law suit in Indiana.

HISTORY REPEATING ITSELF.

In 1861 and 1862 when the Union was threatened and when the conditions were such that every loyal citizen should have laid aside party prejudice for the sake of his country, it was not uncommon, even in the north, to hear men condemn every act of President Lincoln. It was such influence that brought about the organization of anti-Union bands throughout the northern states and prolonged the war at the sacrifice of many lives and much property. Few men can be found in the north today who then took part with the agitators against the Union and against President Lincoln who will admit it. They are ashamed of their disloyalty.

Again when the country is on the verge of war we find men, conservative in most everything but party politics, criticising and condemning President McKinley in the same spirit that President Lincoln was criticised and condemned. They now seek to throw every obstacle possible in the way of a successful termination of the present grave situation. To that extent they are aiding our antagonists. But the time will come when they, like the critics in '61 and '62, will be ashamed of their own course.

SOME CLOSE CALLS.

INSTANCES OF NARROW ESCAPES TOLD BY RAILWAY MEN.

A Locomotive's Remarkable Jump—The Sleeping Car Passenger on a Rough Road—Trains That Left the Track and Returned Running at Full Speed.

There is no question that well authenticated cases are on record where disastrous wrecks of railroad trains have been averted by almost seeming miracles. James E. White, general superintendent of the railway mail service at Washington, relates the particulars of a remarkable jump of 28 feet made by a locomotive. As Mr. White tells the story, it was on the 1st of September, 1892, when a New York and Chicago mail train on the New York Central, which was behind time and running at a very high rate of speed, reached New Hamburg, where a 28 foot draw of a bridge was open, which open space it is claimed the engine cleared and landed safely on the main portion of the bridge, the rest of the train going down through the opening. While the engine, it is said, made the leap of 28 feet in safety, the engineer and firemen, not having time to jump, were both killed. John H. Cain, a postal clerk, was killed, and M. E. Towney, clerk in charge, was seriously injured, the other postal clerks escaping unhurt.

While none of the local railroad men knows of any locomotives that are as good jumpers as White's or that do the bounding jockey act, some of them know of miraculous and hairbreadth escapes. Carlton Paris of the old Ohio and Mississippi for many years and more recently with the B. and O. S. W. tells that he and Ed Swift a number of years ago were riding on a train over the Ohio and Big Sandy road when an accident was narrowly averted. But let Paris tell the story:

"The road was about the roughest at that time I had ever ridden over. There were only a few passengers on the train. Swift and I were in the forward coach talking to the conductor when the solitary sleeping car passenger came staggering in and said: 'Mr. Conductor, your road is so rough I can't sleep in my berth. I have been pitched out of my berth twice in the last quarter of an hour. There must be something the matter.'

"The conductor picked up his lantern and said, 'Come on, and I'll go back with you and see what's wrong.' Swift and I sat where we were talking, and very soon we saw that the bellcord was being very violently pulled and the engineer was whistling for brakes. The train finally came to a standstill, and Swift and I kept our seats and kept on talking. As, after five minutes or more, there were no signs of the train going ahead, we concluded to go back and see what was the cause of the delay.

"The conductor and trainmen were grouped about the sleeper with their lanterns, and we soon found out that the sleeper had left the track and had been running over the ties for how far we never knew. The night was pitch dark and it was raining very hard. It took the men at least three hours to get the sleeper on the rails again. The wheels were very near the end of the ties, and had the train gone 100 yards farther the sleeper would have been off the ties and over a high embankment."

Frank Martin of the Missouri, Kansas and Texas said:

"I remember of a disastrous wreck being almost miraculously averted on the Memphis and Little Rock road along about 1883. A passenger train was traveling at a high rate of speed when the engine threw a piece of rail about three feet long out of the track. This piece of rail was thrown at least 25 feet from the track. Strange as it seems, the tender, baggage car, coaches and sleepers went over this place where the rail was out and gained the rail again without one of the cars leaving the track except when the wheels went down on to the ties at one end of the broken rail, only to mount the rail again at the other end of the track. About all the inconvenience the passengers experienced was a slight shaking."

Assistant General Passenger Agent Ryan said:

"I remember two instances when the lives of engineers and firemen were saved by a seeming intervention of Providence. A number of years ago a new trestle was being put in, and false works had been erected to permit of the temporary passage of trains. The workmen had failed to put in some necessary bolts. The first train that came along was a freight. As soon as the engine struck the false work it gave way, and down went the engine. The fall was one of 50 feet, and in falling the engine made a complete revolution and alighted on the ground upon its wheels right side up, and the engineer and fireman both escaped injury, although they were probably pretty badly jarred by the fall.

"The other case I know of is that of a train running at a good speed when the engine ran into a large rock that had fallen on the track just at the mouth of a tunnel. The impact caused the tender to bend up from the rear end and form a protecting hood over the engineer and fireman in the locomotive cab, and they were uninjured. Had this not occurred, they would either have been badly injure or had their lives crushed out."

Another passenger man said yesterday:

"When I was a sleeping car conductor on the old Bee line, about 30 years ago, the train was late, and we were going along at a pretty lively gait. We were within about five miles of Indianapolis when the engine and four cars jumped the track, and we thought there would be a smash up, but before the train could be stopped every wheel was again on the rails without the least damage being done to any part of the train or any of the passengers, barring the fright we all had."—Cincinnati Enquirer.

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was $100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

California is a Winter Resort

Every year California becomes more popular for those who desire to escape the rigors of the northern and eastern winters, and it is a peculiar fact that those who have visited this land of sunshine, fruit and flowers return annually to the Golden state. We in the east cannot realize the delights of gathering flowers during the winter months. Did you ever see a field of calla lillies in bloom? Yet is not an uncommon sight in California. Undoubtedly the most delightful route at this season of year to California is via the Southern Pacific Company's Sunset Route, and particular attention is called to the sunset limited annex service now operated between the Crescent City and the Golden Gate leaving New Orleans 8:40 p. m. every Tuesday and Saturday. Via this route one enters California at its most south eastern corner, passes through a valley on each side of which two mountains rear their snowy peaks. Once through this gateway the bounties of California are before you; the thriving farms with blooming orchards, meadows decked with scarlet poppies greet the eye in every direction.

For information regarding the Sunset Route as well as other routes to California apply to any agent of the Southern Pacific Company, or address W. G. Neimyer, Gen'l Western Agent 238 Clark St, Chicago, Ill.

Removal Sale!

The undersigned will sell at public auction, on

Wednesday March 30,

At the old Dannettell Homestead, at Chestnut Ridge, three miles south of Seymour the following property:

One quartered oak side board with large French plate mirror, one quartered oak bed-room suit, wash stand with large French plate mirror, one 16th century oak bedroom suit, one ash bedstead, one oak writing desk, one cherry washstand, oak dining rom extension table, half dozen high back oak dining room chairs, four rockers, half dozen hair cloth upholstered chairs, and tables, one Germania range, one large base burner, some smaller stoves, many other useful and ornamental articles. Also one canopy top phaeton, harness, two thoroughbred Jersey cows, one Jersey heifer calf, and Jersey bull calf and some Jersey grades. Also a Bissell riding plow, and a Wood self binder.

Sale to begin at 12 o'clock noon.

A Mother's Misery.

The story of this woman is the every day history of thousands who are suffering as she did; who can be cured as she was; who will thank her for showing them the way to good health.

The most remarkable thing about Mrs. Nellie J. Lord, of Strafford Corner, N. H., is that she is alive to-day.

No one, perhaps, is more surprised at this than Mrs. Lord herself. She looks back at the day when she stood on the verge of death and shudders. She looks ahead at a life of happiness with her children, her husband and her home with a joy that only a mother can realize.

Mrs. Lord is the mother of three children, two of whom are twins; until the twins came nothing marred the joy of her life.

Then she was attacked with heart failure and for a year was unable to attend to the ordinary duties of the home. In describing her own experience Mrs. Lord says:

"I had heart failure so bad I was often thought to be dead.

"With this I had neuralgia of the stomach so bad it was necessary to give me morphine to deaden the pain.

"Sometimes the doctors gave me temporary relief, but in the end it seemed as if my suffering was multiplied.

"Medicine did me no good and was but an aggravation.

"I was so thin my nearest friends failed to recognize me.

"No one thought I would live.

"I was in despair and thought that my days were numbered. My mother brought me Dr. Williams' Pink Pills for Pale People and the first box made me feel better. I continued the treatment and to-day I am well.

"When I commenced to take the pills I weighed 120 pounds; now I weigh 146 and feel that my recovery is permanent.

"I owe my happiness and my health to Dr. Williams' Pink Pills. My husband was benefited by them. I have recommended them to many of my friends and will be glad if any word of mine will direct others to the road of good health."

Dr. Williams' Pink Pills for Pale People have cured many cases of almost similar nature.

The vital elements in Mrs. Lord's blood were deficient. The haemoglobin was exhausted. She was unfit for the strain she was compelled to undergo. Her nervous system was shattered and her vitality dropped below the danger point.

A collapse was inevitable.

Dr. Williams' Pink Pills cured her by supplying the lacking constituents of health by filling the veins with blood rich in the requisite element of life. The heart resumed its normal action: the nervous system was restored to a state of harmony, and the neuralgic affection disappeared.

Dr. Williams' Pink Pills are sold by druggists everywhere, who believe them to be one of the most efficacious medicines the century has produced.

HISTORY REPEATING ITSELF.

In 1861 and 1862 when the Union was threatened and when the conditions were such that every loyal citizen should have laid aside party prejudice for the sake of his country, it was not uncommon, even in the north, to hear men condemn every act of President Lincoln. It was such influence that brought about the organization of anti-Union bands throughout the northern states and prolonged the war at the sacrifice of many lives and much property. Few men can be found in the north today who then took part with the agitators against the Union and against President Lincoln who will admit it. They are ashamed of their disloyalty.

INSTANCES OF NARROW ESCAPES TOLD BY RAILWAY MEN.

A Locomotive's Remarkable Jump—The Sleeping Car Passenger on a Rough Road—Trains That Left the Track and Returned Running at Full Speed.

There is no question that well authenticated cases are on record where disastrous wrecks of railroad trains have been averted by almost seeming miracles. James E. White, general superintendent of the railway mail service at Washington, relates the particulars of a remarkable jump of 28 feet made by a locomotive. As Mr. White tells the story, it was on the 1st of September, 1892, when a New York and Chicago mail train on the New York Central, which was behind time and running at a very high rate of speed, reached New Hamburg, where a 28 foot draw of a bridge was open, which open space it is claimed the engine cleared and landed safely on the main portion of the bridge, the rest of the train going down through the opening. While the engine, it is said, made the leap of 28 feet in safety, the engineer and firemen, not having time to jump, were both killed. John H. Cain, a postal clerk, was killed, and M. E. Towney, clerk in charge, was seriously injured, the other postal clerks escaping unhurt.

While none of the local railroad men knows of any locomotives that are as good jumpers as White's or that do the bounding jockey act, some of them know of miraculous and hairbreadth escapes. Carlton Paris of the old Ohio and Mississippi for many years and more recently with the B. and O. S. W. tells that he and Ed Swift a number of years ago were riding on a train over the Ohio and Big Sandy road when an accident was narrowly averted. But let Paris tell the story:

"The road was about the roughest at that time I had ever ridden over. There were only a few passengers on the train. Swift and I were in the forward coach talking to the conductor when the solitary sleeping car passenger came staggering in and said: 'Mr. Conductor, your road is so rough I can't sleep in my berth. I have been pitched out of my berth twice in the last quarter of an hour. There must be something the matter.'

"The conductor picked up his lantern and said, 'Come on, and I'll go back with you and see what's wrong.' Swift and I sat where we were talking, and very soon we saw that the bellcord was being very violently pulled and the engineer was whistling for brakes. The train finally came to a standstill, and Swift and I kept our seats and kept on talking. As, after five minutes or more, there were no signs of the train going ahead, we concluded to go back and see what was the cause of the delay.

"The conductor and trainmen were grouped about the sleeper with their lanterns, and we soon found out that the sleeper had left the track and had been running over the ties for how far we never knew. The night was pitch dark and it was raining very hard. It took the men at least three hours to get the sleeper on the rails again. The wheels were very near the end of the ties, and had the train gone 100 yards farther the sleeper would have been off the ties and over a high embankment."

Frank Martin of the Missouri, Kansas and Texas said:

"I remember of a disastrous wreck being almost miraculously averted on the Memphis and Little Rock road along about 1883. A passenger train was traveling at a high rate of speed when the engine threw a piece of rail about three feet long out of the track. This piece of rail was thrown at least 25 feet from the track. Strange as it seems, the tender, baggage car, coaches and sleepers went over this place where the rail was out and gained the rail again without one of the cars leaving the track except when the wheels went down on to the ties at one end of the broken rail, only to mount the rail again at the other end of the track. About all the inconvenience the passengers experienced was a slight shaking."

Assistant General Passenger Agent Ryan said:

"I remember two instances when the lives of engineers and firemen were saved by a seeming intervention of Providence. A number of years ago a new trestle was being put in, and false works had been erected to permit of the temporary passage of trains. The workmen had failed to put in some necessary bolts. The first train that came along was a freight. As soon as the engine struck the false work it gave way, and down went the engine. The fall was one of 50 feet, and in falling the engine made a complete revolution and alighted on the ground upon its wheels right side up, and the engineer and fireman both escaped injury, although they were probably pretty badly jarred by the fall.

"The other case I know of is that of a train running at a good speed when the engine ran into a large rock that had fallen on the track just at the mouth of a tunnel. The impact caused the tender to bend up from the rear end and form a protecting hood over the engineer and fireman in the locomotive cab, and they were uninjured. Had this not occurred, they would either have been badly injure or had their lives crushed out."

Another passenger man said yesterday:

"When I was a sleeping car conductor on the old Bee line, about 30 years ago, the train was late, and we were going along at a pretty lively gait. We were within about five miles of Indianapolis when the engine and four cars jumped the track, and we thought there would be a smash up, but before the train could be stopped every wheel was again on the rails without the least damage being done to any part of the train or any of the passengers, barring the fright we all had."—Cincinnati Enquirer.

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was $100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

California is a Winter Resort

Every year California becomes more popular for those who desire to escape the rigors of the northern and eastern winters, and it is a peculiar fact that those who have visited this land of sunshine, fruit and flowers return annually to the Golden state. We in the east cannot realize the delights of gathering flowers during the winter months. Did you ever see a field of calla lillies in bloom? Yet is not an uncommon sight in California. Undoubtedly the most delightful route at this season of year to California is via the Southern Pacific Company's Sunset Route, and particular attention is called to the sunset limited annex service now operated between the Crescent City and the Golden Gate leaving New Orleans 8:40 p. m. every Tuesday and Saturday. Via this route one enters California at its most south eastern corner, passes through a valley on each side of which two mountains rear their snowy peaks. Once through this gateway the bounties of California are before you; the thriving farms with blooming orchards, meadows decked with scarlet poppies greet the eye in every direction.

For information regarding the Sunset Route as well as other routes to California apply to any agent of the Southern Pacific Company, or address W. G. Neimyer, Gen'l Western Agent 238 Clark St, Chicago, Ill.

Removal Sale!

The undersigned will sell at public auction, on

Wednesday March 30,

At the old Dannettell Homestead, at Chestnut Ridge, three miles south of Seymour the following property:

For Councilman Fifth Ward,
FRANK BRETTHAUER.

SINCE the primary Thursday a few Seymour democrats are engaged chiefly in pouring oil on the troubled waters.

A meeting of the democrats of Seymour and Jackson township is announced for next Monday evening at Armory Hall.

THE speech of Senator Thurston on the Cuban situation will be remembered as one of the most notable speeches made on that question.

Dun's Review of last week quotes the price of cash wheat at 1.04½ against 81½ at the corresponding date of last year; corn 35½ against 30½ at the corresponding date of last year; lard, $5.40 against $4 50 last year; mess pork $10.25 against $9 last year, while in other farm products there is an equally striking advance. Yet there has been no free and unlimited coinage of silver meantime.

THE democrats of Van Buren township, Brown county, held a meeting the other day and passed a resolution calling on Congressman Griffith for an explanation of his failure to vote for the Teller resolution. They don't seem to have read his letter which plainly stated that when that matter was voted on our congressman was engaged in a law suit in Indiana.

THE SEYMOUR TAILORING CO.

Perfect Fitting Garments for Men.

Spring Suitings.

Just received a large line of Spring Suitings, which are now ready for inspection at popular prices. Suits to order, $16.00 up. Call and see them before ordering elsewhere. Fit strictly garanteed.

SEYMOUR TAILORING CO., 108 W. 2nd St.
J. A. KELLEY, Manager.

A Spring Speechlet.

Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself.

And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

The People Knew Our Goods are Right and They do Not Hesitate to Say so,

This refers not only to our carefully conducted drug and prescription department, but includes

OUR SODA COUNTER

Nobody sets a standard for us when it comes to soda water. We aim to make it better than the best Thousands of people were delighted with our soda water last year. We are going to please them more than ever this season.

If you are not coming our way you would better join the procession at once.

Bring us your prescription work. Always ready for business. Ring bell at door for night clerk.

TELEPHONE 100.

ALPHA GOX, Seymour, Ind,

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at $2.00 to $2.50 per dozen and guaranteed them to be equal to any made in Seymour at $3.50 to $4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printingout paper, and tone in the same kind of gold and aristo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at $1.50 per dozen that by many are prefered to the higher priced platinums. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

PLATTER & CO.,
No. 19 South Chestnut St., Seymour.

WEATHER INDICATIONS.

CHICAGO, Ill., March 24—For Indiana. —Rain tonight with colder north portions; Sunday much colder with rain south and snow north portions.

GARRIOTT.

Green beans, rhubarb, sweet apples F. Teckemeyer's.

It was a great relief to people who were waterbound at the county seat to get a train out of there last evening.

Mrs. Julia Sage having disposed of her Walnut street property will soon move on Laural street east of Carter street.

The reported drowning of Fred Seager while getting out hogs from the raging waters in Redding township proves to be untrue.

We want to figure on your spring bill of shoes. We offer as an inducement the most complete assortment, the latest styles and the lowest prices.
m25d3t JNO. A. ROSS.

The Salem Bar met and passed appropriate resolutions upon the death of the late Jason B. Brown, ex-congressman and a member of this bar.—Salem Leader.

L. C. Wallick, of the New Lynn, makes it a point to move at the head of the procession. As an evidence of this he received this morning a patent coffee urn worth $100 which is one of the finest divices for a hotel.

It is a plain fact that twenty per cent. of the deaths in our larger cities are caused by consumption; and when we reflect that this terrible disease can be forestalled by Dr. Bull's Cough Syrup, shall we condemn the sufferers for their negligence, or pity them for their ignorance.

For Sale at a Bargain.

Modern two story, Handsome Frame Residence in Select Residence portion of city. An elegant home. Call early on C. A. Saltmarsh. tf

The fac-simile Signature of Chas. H. Fletcher is on every wrapper.

PERSONAL.

Miss Lida Lewis returned today to Scottsburg:

R. J. Hollhour is in the city from Columbus, O.

M. and F. William are in the city from Winchester.

H. C. Simons came here last night from Philadelphia, Pa.

J. M. Sutton, of the round house, is very sick with the grip.

W. C. Fletcher is in the city from Indianapolis to see friends.

Mrs Frank Niebaum, of Ludlow, Ky., is the guest of friends here.

Frank Byrne's tenmonths old babe is very sick with brain trouble.

William Rumbley is recovering from a severe attack of rheumatism.

George Goss, of Ewing, has gone out of business and will go west soon.

Wiley Jones, of Columbus, came down to the city Friday to see friends.

Henry Williams, of Elwood, came here last night to visit his old friends.

Robert Hall and wife, of Redding township, came down to the city Friday.

R. S. Carson and Miss Julia Carson came here today from Jennings county to see friends.

Miss Myme Ross, of Vernon, after a pleasant time spent with friends here, returned home.

C. W. Jones and Miss Ida Jones, of Bedford, came here this morning to see friends.

Miss Ada Wilson, after a pleasant visit to Seymour friends, returned last evening to Milan.

Will Schobert came home this morning from West Baden and is much improved in health.

Mrs. Frank Howard went today to Medora to visit her sister, Mrs. Kirt James and family.

Miss Nora Rinebold returned today to Vallonia from a visit to her aunt, Mrs. Elmer Sullivan.

Miss Lura Brown came home last evening from a pleasant ten days' visit to Brownstown friends.

Miss Clara Wisner of Crothersville who has been very low for some time has taken a change for the better.

Miss Amy Johnson, of Louisville, came here this forenoon to visit her aunt, Mrs. Andy Rinehart and family.

Mrs. Dr. A. A. Reed, of Salem, after an enjoyable visit to her mother, Mrs Julia Rigle and family, returned home today.

Rev. E. C. Trimble, of Louisville, formerly pastor of the Presbyterian church of Seymour went to Indianapolis today.

Mrs Elizabeth Morrison of near Jaketown, who has been very low for three years with paralysis, is thought to be some better today.

Miss Ida Jeffers of Ft. Ritner, who has been handsomely entertained by her aunt, Mrs. Jerome Boyles and family, returned home today

Mrs. Mary Kipper, of Jeffersonville, who has had an enjoyable visit to her mother, Mrs. Elizabeth Cornmeyer and family returned home today.

Charles Armbruster, an employe of the Hub & Spoke Factory, left for his home at Kurtz today by way of Bedford to attend the marriage of his brother Howard.

Dr. Elmer D. White, of the medical college of Indianapolis, who has been visiting his cousin, Dr. Hunter, and family of Reddington, went today to Campbellsburg to visit his home.

DR. PRICE'S CREAM BAKING POWDER

A Pure Grape Cream of Tartar Powder.

RIVER RECEDING.

Danger Past Unless There is Another Rise of the River.

The river has fallen several feet and will soon be within its banks, unless there should be sufficient rain to to cause a second rise.

Much damage to fences and growing wheat has been done all along the river. The county will sustain a much lighter loss than a year ago.

The B. & O. S. W. began running trains through this morning. The most dangerous place now along their line seems to be at Shoals

The J. M. & I. road, while greatly damaged is being rapidly put in order. The worst place is at Rockford where some of the trestle work at the north end of the bridge is washed out. A large force of men are at work there and hope to get a train over probably by Sunday evening

Trains pass between Louisville and Indianapolis, going from Columbus down to North Vernon and from there to Seymour via B. & O. S. W.

The Southern Indiana is making rapid progress and will be running trains through the first of the week.

The Ohio river is still rising having reached the danger point last night No. 3 last night was the last train out of the Grand Central depot

Governor Mount's Health.

Gov. Mount has, upon the advice of his physician, retired to his farm in Montgomery county, where he will remain for some time, unless some emergency arises demanding his return to Indianapolis. The governor's physician says that he is on the verge of a collapse from nervous prostration, and that if he does not take a rest he will complet ly break down.

Look After Health.

On account of the great amount of rain and overflows farmers would do well to clear their fields of corn stalks and other rubbish and thereby prevent a vast amount of malaria that would otherwise result.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitional disease, and in order to cure it you must take internal remedies. Hall's Catarrh cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Seymonr, Indiana.

A Great Ditch.

The contract has been awarded at Princeton for the largest ditch ever dug in Southern Indiana It will be run through the Wabash bottom in Gibson county, ten miles long, with an average width at the top of 35 feet and an average depth of seven feet. The contract price was $17,037 50

Best of All

To cleanse the system in a gentle and truly beneficial manner, when the springtime comes use the true and perfect remedy, Syrup of Figs. Buy the genuine. Manufactured by the California Fig Syrup Co. only and for sale by all druggists, 50cts per bottle.

How He Got Home.

Over and over Dr. Grassle has been asked the question, "How did you get home from Columbus?" Now the doctor can answer the question all right but to save time and to relieve his many anxious friends we state that he was driven overland to Elizabethtown then to Azalia, walked from Azalia to Reddington where he was met by a Seymour liveryman and brought home

"I have used Salvation Oil in my family and find it to be a splendid liniment Mr. Ella Journey, 728, 6th st, Portsmouth, Va.

Citizens Meeting.

There will be a meeting held in the Methodist church in the interest of the Good Citizens League movement on Monday the 28th inst, at 7:30. 2t

Presiding Elder Rothweiler, of New Albany, came here to hold quarterly meeting today and Sunday at the German M. E. church.

Elder Thomas Jones went today to Vallonia on church business.

C. J. Leidorf is digging another cellar on his premises.

D. E Leiter, of Memphis, Tenn., came here today on church business.

Geo. B. Secord, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other." For sale by C. W. Milhous

Series N.

Co-Operative Building and Loan Association will be taken up Monday April 4. All those desiring shares should apply to

dif W. F. PETER, Sec'y.

Save Your Money.

On Monday April 4, 1898, the Co-operative building and loan association will open series N of its stock and parties wishing to secure stock in the series should see the secretary, W. F. Peter, at once.

This institution has demonstrated that it is conducted in a safe and conservative manner. It affords an opportunity for the man who can save only a small sum each week to lay it by regularly and in addition to the accumulations from the saving he will receive interest thereon. The money is loaned by the association on first mortgage security so that it is absolutely safe and guarantees the increase of the small savings made in the same proportion as the increase of the larger savings. Many a laboring man in the city has been able to pay for his own home through this institution and the way is open for many an other to do the same thing.

Do not fail to see the secretary, W F. Peter, at once, and take some stock in series N.

BUSINESS NOTES.

W. B. Dale is her from Louisville on business.

Toney Riehart killed a blacksnake racer five feet long yesterday.

W. H. Thomas made a business trip this morning to the county seat.

C. W. Cruson, of Scottsburg, came up to the city this morning on business.

Sol H. Davis came home last night from a business trip to Springfield, Ill.

A. M. Jones and E. E. Fillian of Bedford came here this forenoon on business.

James Ruddick yesterday finished planting his early potatoes on his farm.

S. J. Lewis, of Paducah, Ky., came to the city last evening on business with our orchardists.

Henry Hodapp last evening finished putting a new roof on the Urish White's residence south of the city.

At Shoals this morning White river was within six feet of the high water mark of last year and rising three inches an hour.

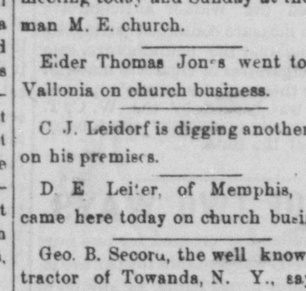

The Apple Dumpling.

Apple dumpling day was a red letter one in my boy's calendar. When I had such a dainty bit in my bag, it seldom staid there many minutes. Although I had dispatched a hearty breakfast before starting, out would come the dumpling. "Just to have a look at it and to see if it is as big as mother generally makes them," I would say to myself. Then I would turn it about and admire its size. From handling the dainty to tasting it was a sure process. "I'll have one little bite, only a nibble," I would say.

When I had got my tooth into that dumpling, Adam with his apple wasn't in it. It was a case of once bitten soon gone. Then I would hurry on to make up for my dawdling with only the hunk of barley bread in my wallet, the joys of the dumpling behind me, and before me the day's drudgery, with perhaps a thrashing thrown in.—"Life of Joseph Arch."

Commander Marix.

Washington, March 26.— Pending action of the report of the court of inquiry, Lieutenant Commander Marix, the judge advocate of the court, will be on special duty in the office of the judge advocate general. Here he will be available to supply any information that the president or the secretary of the navy may desire in connection with the proceedings of the court.

SEYMOUR TAILORING CO., 108 W. 2nd St.
J. A. KELLEY, Manager.

A Spring Speechlet.

Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself.

And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

The People Know Our Goods are Right and They do Not Hesitate to Say so,

This refers not only to our carefully conducted drug and prescription department, but includes

OUR SODA COUNTER

Nobody sets a standard for us when it comes to soda water. We aim to make it better than the best Thousands of people were delighted with our soda water last year. We are going to please them more than ever this season.

If you are not coming our way you would better join the procession at once.

Bring us your prescription work. Always ready for business. Ring bell at door for night clerk.

TELEPHONE 100

ALPHA COX, Seymour, Ind,

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at $2.00 to $2.50 per dozen and guaranteed them to be equal to any made in Seymour at $3.50 to $4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printingout paper, and tone in the same kind of gold and aristo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at $1.50 per dozen that by many are prefered to the higher priced platinums. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

PLATTER & CO.,
No. 19 South Chestnut St., Seymour.

WEATHER INDICATIONS.

CHICAGO, Ill., March 24—For Indiana.—Rain tonight with colder north portions; Sunday much colder with rain south and snow north portions.

GARRIOTT.

Green beans, rhubarb, sweet apples F. Teckemeyer's.

It was a great relief to people who were waterbound at the county seat to get a train out of there last evening.

Mrs. Julia Sage having disposed of her Walnut street property will soon move on Laural street east of Carter street.

The reported drowning of Fred Seager while getting out hogs from the raging waters in Redding township proves to be untrue.

We want to figure on your spring bill of shoes. We offer as an inducement the most complete assortment, the latest styles and the lowest prices.
m25d3t JNO. A. ROSS.

The Salem Bar met and passed appropriate resolutions upon the death of the late Jason B. Brown, ex-congressman and a member of this bar.—Salem Leader.

L. C. Wallick, of the New Lynn, makes it a point to move at the head of the procession. As an evidence of this he received this morning a patent coffee urn worth $1.00 which is one of the finest divices for a hotel.

It is a plain fact that twenty per cent. of the deaths in our larger cities are caused by consumption; and when we reflect that this terrible disease can be forestalled by Dr. Bull's Cough Syrup, shall we condemn the sufferers for their negligence, or pity them for their ignorance.

RIVER RECEDING.

Danger Past Unless There is Another Rise of the River.

The river has fallen several feet and will soon be within its banks, unless there should be sufficient rain to to cause a second rise.

Much damage to fences and growing wheat has been done all along the river. The county will sustain a much lighter loss than a year ago.

The B. & O. S. W. began running trains through this morning. The most dangerous place now along their line seems to be at Shoals

The J. M. & I. road, while greatly damaged is being rapidly put in order. The worst place is at Rockford where some of the trestle work at the north end of the bridge is washed out. A large force of men are at work there and hope to get a train over probably by Sunday evening

Trains pass between Louisville and Indianapolis, going from Columbus down to North Vernon and from there to Seymour via B. & O. S. W.

The Southern Indiana is making rapid progress and will be running trains through the first of the week.

The Ohio river is still rising having reached the danger point last night No. 3 last night was the last train out of the Grand Central depot

Governor Mount's Health.

Gov. Mount has, upon the advice of his physician, retired to his farm in Montgomery county, where he will remain for some time, unless some emergency arises demanding his return to Indianapolis. The governor's physician says that he is on the verge of a collapse from nervous prostration, and that if he does not take a rest he will complet ly break down.

Look After Health.

On account of the great amount of rain and overflows farmers would do well to clear their fields of corn stalks and other rubbish and thereby prevent a vast amount of malaria that would otherwise result.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitional disease, and in order to cure it you must take internal remedies. Hall's Catarrh cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Series N.

Co-Operative Building and Loan Association will be taken up Monday April 4. All those desiring shares should apply to

dtf W. F. PETER, Sec'y.

Save Your Money.

On Monday April 4, 1898, the Co-operative building and loan association will open series N of its stock and parties wishing to secure stock in the series should see the secretary, W. F. Peter, at once.

This institution has demonstrated that it is conducted in a safe and conservative manner. It affords an opportunity for the man who can save only a small sum each week to lay it by regularly and in addition to the accumulations from the saving he will receive interest thereon. The money is loaned by the association on first mortgage security so that it is absolutely safe and guarantees the increase of the small savings made in the same proportion as the increase of the larger savings Many a laboring man in the city has been able to pay for his own home through this institution and the way is open for many an other to do the same thing.

Do not fail to see the secretary, W F. Peter, at once, and take some stock in series N.

BUSINESS NOTES.

W. B. Dale is her from Louisville on business.

Toney Riehart killed a blacksnake racer five feet long yesterday.

W. H. Thomas made a business trip this morning to the county seat.

C. W. Cruson, of Scottsburg, came up to the city this morning on business.

Sol H. Davis came home last night from a business trip to Springfield, Ill.

A. M. Jones and E. E. Fillian of Bedford came here this forenoon on business.

James Ruddick yesterday finished planting his early potatoes on his farm.

S. J. Lewis, of Paducah, Ky., came to the city last evening on business with our orchardists.

Henry Hodapp last evening finished putting a new roof on the Urish White's residence south of the city.

At Shoals this morning White river was within six feet of the high water mark of last year and rising three inches an hour

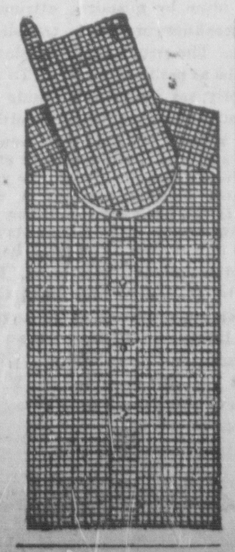

The Apple Dumpling.

Apple dumpling day was a red letter one in my boy's calendar. When I had such a dainty bit in my bag, it seldom staid there many minutes. Although I had dispatched a hearty breakfast before starting, out would come the dumpling. "Just to have a look at it and to see if it is as big as mother generally makes them," I would say to myself. Then I would turn it about and admire its size. From handling the dainty to tasting it was a sure process. "I'll have one little bite, only a nibble," I would say.

When I had got my tooth into that dumpling, Adam with his apple wasn't in it. It was a case of once bitten soon gone. Then I would hurry on to make up for my dawdling with only the hunk of barley bread in my wallet, the joys of the dumpling behind me, and before me the day's drudgery, with perhaps a thrashing thrown in.—"Life of Joseph Arch."

Commander Marix.

Washington, March 26.—Pending action of the report of the court of inquiry, Lieutenant Commander Marix, the judge advocate of the court, will be on special duty in the office of the judge advocate general. Here he will be available to supply any information that the president or the secretary of the navy may desire in connection with the proceedings of the court.

Henry Mellehcamp, a prosperous farmer of Hamilton township, was here yesterday and favored the REPUBLICAN with a pleasant business visit.

W. H. Reynolds and J. F. Keach, of Tampico, brought over two tons of poultry, eggs and butter to the city Friday and sold it to A. D. Eldridge.

Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food after digestion. Digestion is made easy with Shaker Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength, Food is not food until it is digested.

Tired, pale, thin, exhausted, sick sufferers from indigestion, can be cured by the use of Shaker Digestive Cordial.

It will revive their spent energies refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

It aids nature, and this is the best of it. It gives immediate relief and, with perseverance, permanently cures.

At druggists. Trial bottle 10 cents.

DIED.

A young man named Hobenie, of near Tampico, died Friday morning March 25, 1898, with diabetes aged about seventeen years.

After using a 10 cent trial size of Ely's Cream Balm you will be sure to buy the 50 cent size. Cream Balm has no equal in curing catarrh and cold in head. Ask your druggist for it or send 10 cents to us.

ELY BROS., 56 Warren st N. Y. City

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clarke, 341 Shawmut Ave. Boston.

Another Train.

The Bedford Mail says that early in April the Southern Indiana road will put on a train to run between Washington and Seymour,

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's Drug Store. 50 cents per bottle.

CASTORIA. The fac-simile signature of Chas. H. Fletcher. 1 on every wrapper.

WHILE KNEELING IN PRAYER.

Tennes Taylor, brakeman on the Louisville and St. Louis airline railway, fell between cars near Princeton, Ind., and was instantly killed.

John W. Myers, who has been on trial for embezzling $19,000 from Starke county, O., while deputy treasurer, has been found not guilty by a jury.

'Squire Evans of Osgood, Ind., has been placed under bonds on complaint of a Louisville firm, accusing him of having obtaining goods by false pretense.

Fifty girls in the gum works at Salem, O., have gone on strike because the firm insist they shall sign a contract not to become members of the Federation of Labor.

FORMER ILLINOISAN.

Edward Stempel Charged With Deadly Assault by German Authorities.

Berlin, March 26.—The police have issued a circular containing a personal description of Edward Stempel, described as an American millionaire, born at Rock Island, Ills., and lately residing in a suburb of Berlin, asking for his arrest on the charge of committing a deadly assault upon a fellow passenger on a train. Stempel is said to be stopping at Nice with his family.

CASTLE HALL.

Grand Lodge of K. of P. Will, It Is Said, Apply For a Receiver.

Indianapolis, March 26.—The grand lodge K. of P. of Indiana is taking steps to protect its property interest in Castle Hall association, and will some time today, it is said, file an application for a receiver, alleging mismanagement. Valuable real estate owned by the association was recently sold for delinquent taxes.

Welsbach Light Company Wins Its Suit.

New York, March 26.—Judge Townsend of the United States circuit court has handed down an opinion in the case of the Welsbach Light company against the Sunlight Incandescent Gas Lamp company in favor of the Welsbach company, granting an injunction restraining the Sunlight company from manufacturing or selling incandescent gas lamp mantels and ordering an accounting. The suit was brought by the Welsbach company for an infringement of patent.

CIGARETTE MEASURE.

Acting Governr Worthington Vetoes the Kentucky Law.

Frankfort, Ky., March 26.—Lieutenant and Acting Governor Worthington has vetoed the Walker anticigarette bill. The measure contained stringent penalties against the manufacture, sale or use of cigarettes or cigarette material or having these articles in one's possession. It was backed by the W. C. T. U., but warmly opposed by the tobacco interests of the state.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptable for the urine, and as such it is not liable to any form of disease except by one of two ways The first way is from imperfect action of the kidneys, The second way is from careless local treatment of other diseases

CHIEF CAUSE.

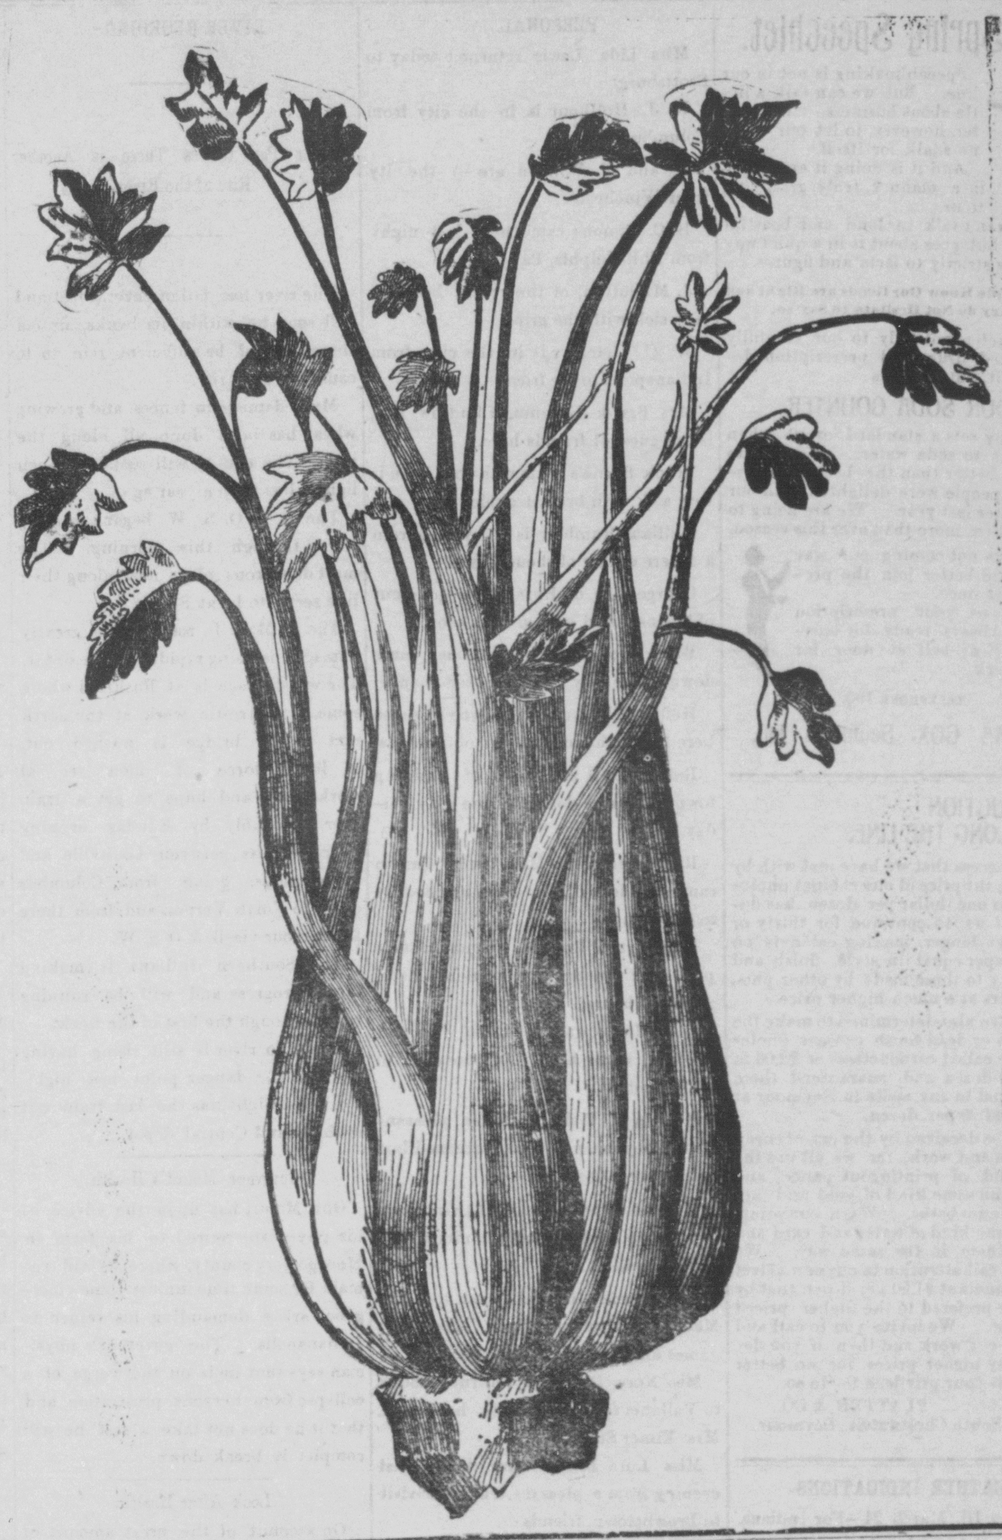

Unhealth urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed o female weakness or womb trouble of some sort. The error is easily made and and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney, and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and and pamphlet, both sent free by mail, upon receipt of three two cent stamp to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

CASTORIA. The fac-simile signature of Chas. H. Fletcher. 1 on every wrapper.

MARCH---APRIL---MAY.

For Blood and Nerves in the Spring

Paine's Celery Compound.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by C. W. Milhous.

Give the Children a Drink

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about [illegible] 8c.

Rev. E Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. He says; "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by C. W. Milhous.

Many People Cannot Drink

Coffee at night, It spoils their sleep. You can drink Grain O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect Drink. Made from pure grains. Get a package from your grocer today. Try it in place of coffee.—15 and 25c.

Wright's Celery Tea cures constipation, sick headaches 25c at druggists.

BUSINESS NOTES.

S. E. Wallace came up last evening from Ewing on business.

H. D. Fish came here last evening from Evansville on business.

Peter Kessler was yesterday appointed agent of the Terre Haute Brewing Company.

James Montgomery, of Redding township, is delivering a big lot of elm poles to the Hub Factory.

James Ludlow and Albert Stanfield of Jennings county were business visitors here last evening.

George Stofer, of Louisville, and W. D. Covner, of Cincinnati, came to the city last evening on business.

William McCollum, of Aurora, came here last evening on business and to visit his sister, Mrs. L. L. Shields.

Henry Mellehcamp, a prosperous farmer of Hamilton township, was here yesterday and favored the REPUBLICAN with a pleasant business visit.

W. H. Reynolds and J. F. Keach, of Tampico, brought over two tons of poultry, eggs and butter to the city Friday and sold it to A. D. Eldridge.

Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food after digestion. Digestion is made easy with Shaker Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength, Food is not food until it is digested.

Tired, pale, thin, exhausted, sick sufferers from indigestion, can be cured by the use of Shaker Digestive Cordial.

It will revive their spent energies refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

It aids nature, and this is the best of it. It gives immediate relief and, with perseverance, permanently cures.

At druggists. Trial bottle 10 cents.

DIED.

A young man named Hobenie, of near Tampico, died Friday morning March 25, 1898, with diabetes aged about seventeen years.

After using a 10 cent trial size of Ely's Cream Balm you will be sure to buy the 50 cent size. Cream Balm has no equal in curing catarrh and cold in head. Ask your druggist for it or send 10 cents to us.

ELY BROS., 56 Warren st N. Y. City

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clarke, 341 Shawmut Ave. Boston.

Another Train.

The Bedford Mail says that early in April the Southern Indiana road will put on a train to run between Washington and Seymour,

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's Drug Store. 50 cents per bottle.

VOLUME XXII---NO. 125. SEYMOUR, INDIANA, SATURDAY EVENING, MARCH 26, 1898. PRICE TWO CENTS

A Shattered Nervous System.

FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

MR. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Braceville, Ill., writes: "I had never been sick a day in my life until in 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address,

Maine Court's Report Under Consideration — Unprecedented War Preparations — Spain Officially Notifies Washington That the Maine Explosion Was Internal.

Washington, March 26.—The court of inquiry appointed to investigate the cause of the Maine disaster has reported that the loss of the battleship was due to an outside explosion.

The state department, by direction of the president, has cabled United States Minister Woodford at Madrid to notify the Spanish government of this conclusion. The president and his cabinet advisers held two extended sessions yesterday, at which the report was considered in detail. Members of the cabinet stated after the meeting that the discussion was of grave character and that never since the wrecking of the Maine has the situation seemed so critical.

The Spanish government has cabled officially to Washington that the Spanish naval commission holds the disaster to the Maine to be of internal origin. The government of Spain, it can be stated positively, is not disposed to turn

COMMANDER OF THE FLYING SQUADRON.
Commodore Schley.

back the torpedo flotilla now proceeding from the Canaries, and would be disinclined to consider a suggestion from this government tending to interfere with the disposition by Spain of her own naval forces.

Unprecedented War Preparations.

War preparation on an unprecedented scale is being hurried to completion by the war and navy departments and the country practically is on a war footing.

The foregoing gives the record of one of the most eventful days the national capital has seen since the close of the civil war. It was a day of profoundly important action of the deepest anxiety, coupled with naval and military activity one step following another in rapid succession. Representative men of the administration—public men in all branches of official and congressional life—no less than the public in general, shares in the tension to which the situation has been wrought. There was no effort among the highest officials, nor indeed was it possible from what was clearly apparent in the developments of the day, to minimize the situation.

Viewed in details the findings of the of the court of inquiry was the most vital feature. The results, briefly stated, are that the loss of the Maine was due to an explosion from the outside, the court being unable to fix the responsibility for the explosion. The court does not express an opinion as to the character of the explosion, but the testimony goes to show that it was a powerful submarine mine, the exact character of which is not determined by the testimony, though the belief was expressed that it was a floating submarine mine. There were two explosions, court finds: the first was from the outside, and that set off one of the smaller magazines. It was this result, expressed in detail and with the precision of a court deeply conscious of its responsibility, together with the evidence on which it was based, that occupied the attention of the cabinet throughout its extended sessions.

All other and lesser subjects gave way to this foremost question. There was no change in the plan of making the report public and transmitting it to congress early next week, accompanied by a brief message from the president.

THE FLYING SQUADRON.

Commodore Schley Will Hoist His Flag on the Brooklyn.

Washington, March 26.—The orders issued by the navy department during the day covered every branch of naval armament. The flying squadron was definitely established, with Commodore W. S. Schley in command. He will hoist his commodore's flag on the flagship Brooklyn next Monday. The squadron is to consist of exactly five ships, no more and no less, despite conjecture as to possible ships that might be added. Those of the squadron will be the crack armored cruiser Brooklyn, the battleships Massachusetts and Texas and the cruisers Columbia and Minneapolis. Other ships which are now or hereafter at Hampton Roads will not be of the flying squadron, but will belong to the north Atlantic station, under Captain Sampson.

COMMODORE SCHLEY'S FLAGSHIP.
The Cruiser Brooklyn.

SPANISH FLOTILLA.

Its Interception Urged by the Highest Naval Authority.

Washington, March 26.—While interest was centered at the white house, the navy and war departments were hurrying forward their work of preparations. The advance of the Spanish torpedo flotilla continued to receive the closest attention of naval officials, and while so far as could be ascertained, no definite line of action was determined upon, the need of intercepting this fleet was urged by the highest naval authorities.

From the standpoint of the Spanish government, this movement was not a menace, having been decided upon many weeks ago. On the contrary, the Spanish government holds that the extensive armament of the Dry Tortugas is a more direct hostile act against Spain than any movement of the flotilla. Instead of stopping the flotilla, the present attitude of Spain tends toward re-enforcing it with other Spanish war vessels, not as a menace but from what the Spanish government feels, is a requirement called for by the existing condition of affiairs.

NAVAL MILITIA.

It Will Be Called Upon to Man the Monitors.

Washington, March 26.—No definite arrangements have been made by the department for the calling of the naval militiamen into service, but such arrangements will be made perhaps by to-night. It is not unlikely that the naval militia of New Jersey will be called upon to assist in manning the old monitors. As to the rumored likelihood that the naval militia of Ohio, Illinois and Michigan would be called into service, navy department officials said that no steps to that end had yet been taken, but the intimation was broadly conveyed that they would be called upon to serve upon the monitors. The department is satisfied that not only the vessels themselves, but also the crews, inexperienced though they may be, will give a good recount of themselves if any emergency should arise that would put them into action.

ONE OF GERMANY'S.

Government Purchases a "Schischau" Torpedoboat.

Washington, March 26.—The navy department was informed by cablegram from Lieutenant Colwell, naval attache to the United States embassy at London, that agents of this government had purchased a "Schischau" torpedoboat that has been constructed for the German government. The new acquisition is of the general type of German torpedo boats and is regarded as a valuable addition to our navy. She is now ready for sea and it is expected that in a few days she will leave for the United States.

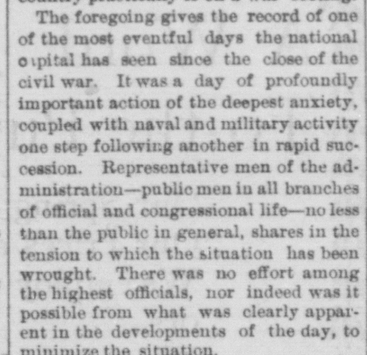

She is a 23-knot vessel, and about 150 feet long. While of the same general type as the Rodgers and Foote of the United States navy, she is a trifle larger. At the navy department the precise dimensions of the new boat could not be given.

Flagler Gets Another Allotment.

Washington, March 26.—A few days ago Secretary Alger alloted to General Figler $1,600,000 from the emergency appropriation made by congress to be used by the ordnance bureau in the discretion of General Flagler. This amount although large, was not, in the opinion of General Flagler, sufficient to meet the requirements of the present emergency. After a careful canvass of the situation Secretary Alger yesterday gave General Flagler a liberal additional allotment from the appropriation, but no information could be obtained either from General Flagler or from the secretary's office as to its amount.

Petition for a Pardon.

Columbus, O., March 26.—Representative Otis has been circulating a petition among the members of the legislature, and is said to have about 40 signers, for a pardon for George Hobson, ex-clerk of Hamilton county, serving time for embezzlement.

When a young woman sits down and ponders over her future life, there is one all-important subject which she should not forget. In a day dream she may build castles in the air with a happy home, laughing children and a loving husband in the fore-ground. At that moment she may be facing death. Matrimony and motherhood hold out no happiness to the young woman who suffers from weakness and disease of the distinctly feminine organism. The woman who suffers in this way will be a weak, nervous, sickly, petulant wife, an incapable mother and an unamiable hostess. Not knowing the truth, her acquaintances will not understand that she is deserving of pity rather than reproach.

Any woman may be strong and healthy in a womanly way if she will use the right remedy. Dr. Pierce's Favorite Prescription is the best of all medicines for weak and ailing women. It acts directly on the delicate and important organs that make wifehood and motherhood possible. It makes them strong, healthy and vigorous. It banishes the dangers that surround maternity. It insures a healthy baby and an ample supply of nourishment. Thousands of women who were weak, sickly, nervous invalids, are now healthy, robust wives and competent mothers of healthy children, as the result of the use of this medicine.

Mrs. John M. Conklin, of Patterson, Putnam Co., N. Y., (Box 104), writes: "I am enjoying *perfect* health and have been since I took the last bottle of Dr. Pierce's Favorite Prescription. I had falling of the internal organs, or female weakness, and flowing caused by miscarriage, and was very weak when I commenced taking your medicine."

The unfailing, never-griping *cure* for constipation—Dr. Pierce's Pleasant Pellets.

ORDERED TO HAVANA

Sudden Sailing of the Mangrove From Key West.

TO PROCEED WITH ALL HASTE.

She Is Instructed to Bring Home All Officers Except Consul General Lee. Rear Admiral Sicard on the Court's Findings—How the News Was Received at Key West.

Key West, March 26.—The most significant development that followed the announcement of the court's report—a development known to but few—was the sudden sailing of the lighthouse tender Mangrove for Havana. The Mangrove was lying quietly at the dock loading buoys, when orders came last night for her to proceed with all haste to Havana and to take on board all the American officials in that city with the exception of Consul General Lee.

It is feared here that the knowledge of the court's report has excited Havana population and brought the anti-American sentiment to a climax.

How the Courts Finding Was Received.

The news that the court of inquiry had found the Maine was blown up by submarine mine created intense excitement here. It was read by eager crowds, which includes Rear Admiral Sicard, elderly captains and young cadets. As frequently stated in these dispatches most of the naval officers at Key West have held to the opinion, shared by all the officers of the Maine that the warship was blown up by external means. The minority, who, previously expressed the conviction that the court would be unable to determine the cause, was hard to find. All were glad to know that the Maines fate was not due to the negligence of her own officers.

Officers of high rank are still reticent. Rear Admiral Sicard, however, said: "The court of inquiry brought in findings according to what its members believed. Nothing could have made them do otherwise. If they had been able to fix the responsibility I feel sure they would not have shirked this duty."

The attention of Rear Admiral Sicard was drawn to the fact that Spain has officially denied that Havana harbor was mined.

He replied: "If Havana harbor were mine I should certainly have mined it. The water there is especially suitable to such a method of defense. Spain's denial had nothing to do with the court of inquiry. I should not believe a statement that Havana harbor were not mined. The court has not yet been dissolved. It is barely possible that more work may be required of it; but this is not probable.

"The court of inquiry is composed of splendid men. I am greatly satisfied with their work. I hardly suppose much excitement will be caused by the announcement of the verdict, as I am under the impression that 99 per cent of our own people were already convinced that the Maine was blown up externally; and I scarcely think their ideas would have changed even if the court had reported otherwise."

On the possibility of arbitration, Rear Admiral Sicard said: "The Maine case is nothing in comparison with the Alabama claims. Then we were opposed to a powerful commercial rival, but now we are dealing with Spain."

YOUNG GIRL SUICIDES.

Her Mother Chastized Her for Keeping Objectionable Company.

Columbus, March 26.—Lotta Gillespie, a young girl of this place suicided by taking two ounces of laudnum. The young girl had been chastized by her mother for keeping company with another girl. She went to a drugstore, and bought the poison. She said her mother wanted it to poison mice. She stopped in at a neighbor's, put the laudnum in a cup of water, drank it and started for home. On arriving at home she said she had taken the poison. A physician was summoned and tried to get her to take an emetic. She refused for some time, but finally did so. The drug had done its work, however, and she died.

STRIKE AVERTED.

Burns Succeeds In Settling the Troubles of the Windowglass People.

Pittsburg, March 26.—The threatened strike of the American Windowglass Workers' association has been averted. President Simon Burns yesterday having successfuly carried through his contention in the Indiana factory trouble with the United Glass company, the strike at the Orestes factory has been declared off and Folse, the objectionable man, together with the other employes, will return to work. This decision was reached last evening after a harmonious conference between Mr. Burns, George L. Cake, president of the flatteners' league and J. G. Sayers of Anderson, Ind., representing the manufacturers. The factory will resume operations as soon as it can be put in shape.

EXTRA SESSION.

Bradley Intimates He Will Call One In Case of War.

Frankfort, Ky., March 26.—It is rumored here that Governor Bradley, before the late adjournment of the legislature, held a conference with Speaker Beckham and other legislators, and intimated that in case of war, which he believes is nearly certain, an extra session of the legislature would be called. The extra session, it is presumed, would be called to make provision for better equipment of the state troops.

BRADSTREET'S VIEWS.

Talks on the Present Condition of Trade and Its Outlook.

New York, March 26.—Bradstreets to-day says the favorable features of the week in distributive trade have been the reports coming, with few exceptions, from all parts of the west and northwest and marred only by the check to business and shipments caused by heavy rains and high water in the Ohio valley. But the two industries, cotton and woolen, most complaining are those in which conditions other than foreign complications have for some time past been working towards depression. The coarse cotton goods situation does not improve in any way and there are declines in print cloths to a still lower record quotation.

While some woolen goods mills have already booked good orders the business done as a whole, has not been up to anticipations. Raw wool, however, does not reflect the rather unsatisfactory condition in the manufactured product in lower quotations. The condition of the iron and steel trade is one which excites satisfaction and almost surprise. From a number of widely separated sections the report comes of unprecedented activity in nearly all branches of the trade. The price situation this week is notable in showing decreases more numerous than for some time past. This, of course, includes many lines in which speculation plays a prominent part.

LEITER AND ARMOUR.

Truce Reported to Have Been Entered Into Between Them.

Chicago, March 26.—A rumor was current on the board of trade to the effect that Armour and Leiter had patched up a truce in the wheat pit to which P. B. Wear was also a party. Mr. Leiter said:

"I will neither deny nor confirm the rumor of any amicable arrangement between myself, Armour and Wear. I will not discuss the matter."

Mr. Armor said: "I have nothing to say about any agreement. The reason why wheat is not coming here from the northwest is that the spread between the markets there and here will not allow it to come. The advance in railroad rates has made it impossible to work wheat on the old differences. When the markets get right you will see the wheat come if it is in the country."

Mr. Weare also denied knowledge of any combination and if market action is evidence the story was discredited by the trade.

SOUTHALL TIME CHECKS.

So Far Nearly $400,000 Worth Have Been Discovered.

St. Paul, March 26.—James H. Southall, accused of indefinitely large transactions in bogus time checks, continues an inmate of the county jail. No bail has been offered. The estimate of the total volume of checks is still $500,000 or something less. Reports are coming in and so far the total is less than $400,000, so far as the issues have been disclosed. It is said that the government has issued no time checks such as those negotiated by Southall since 1890, and all bearing any date later than that year are declared to be bogus.

PENSION DEFICIENCY.

Secretary of Interior Sends an Estimate to the House.

Washington, March 26.—The secretary of the interior has sent to the house an estimate calling for the appropriation of over $8,000,000 to meet a deficiency in the pension funds. Of this amount $2,000,000 is credited to the lack of last year's appropriations and the other $6,000,000 to large increases, restorations and new pensions granted. This brings estimates so far submitted for incorporation into the general deficiency bill to about $14,000,000.

FLOODS.

Hundreds of People Homeless at Dayton and Zanesville, O.

Cincinnati, March 26. — The Ohio river is nearly 54 feet and rising, with more water reported coming from above. As far as the loss of life and property is concerned, that is all over in the interior. But want and desolation is left in track of the storm. At Dayton and Zanesville hundreds of families are homeless. Much destruction of property is reported from Indiana. All streams are receding.

Industrial School Burned.

Waukesha Wis., March 26.—Fire last night destroyed the Wisconsin Industrial School for Boys. The 350 inmates escaped without injury and there was much excitement. The loss is $75,000.

Twenty Miners Killed.

Brussels, March 26.—The firing of a dynamite cartridge in the Hazard coal mines near Liege yesterday caused an explosion of coal gas. Twenty miners were killed.

WIRE WHISPERS.

United States treasury cash balances, $224,474,672; gold reserve, $172,219,161.

Yale college has won the fourth annual intercollegiate debate between Yale and Princeton.

Pittsburg will give the remains of Lieutenant F. W. Jenkins, who lost his life in the Maine disaster, a public funeral.

The total amount of cash received at the state department for Cuban relief is $30,048, of which President McKinley gave $5,000.

The Kansas Central M. E. conference by a vote of 53 to 18 expressed its opposition to equal lay representation in the general conference.

Professor Brooks of Smith observatory, Geneva, N. Y., reports that he has observed the new comet recently discovered by the Lick observatory.

Three hundred and fifty students of Lafayette college at Easton, Pa. have telegraphed a tender of their services to President McKinley in case of war.

JUDGE DOWNEY DEAD

Death Occurred at Rising Sun. Caused By Paralysis.

MRS. EMBERLIN ROASTED ALIVE

Eli Middleton Dies While Kneeling In Prayer—Charles Gregory Fined $100. Coroner Wanted—Dr. A. W. Sheet Dead—Laurel, Ind., Cut Off by Floods—Valve Blew Out.

Rising Sun, Ind., March 26.—Judge A. C. Downey died at his residence last evening, aged 81 years. About two months ago he suffered a stroke of paralysis, which was repeated yesterday afternoon. He was on the supreme bench of Indiana from 1873 to 1879, and is the oldest Knight Templar in Indiana. The funeral will be conducted by the officers of the grand lodge of Masons.

COLONEL MILLIGAN.

Retires From the Bar and Reads an Affecting Farewell Address.

Huntington, Ind., March 26.—Colonel L. P. Milligan, appeared in court and announced his retirement from the bar. Colonel Milligan had been in active practice 63 years and is 86 years old. He read a farewell address to the bar, recounting his experiences, and especially of the trying times during the war when he was arrested, imprisoned, tried and sentenced to be hanged for treason, and his life was saved by United States supreme court decision. Colonel Milligan was charged with being a member of the Knights of the Golden Circle. While delivering his farewell address he broke down several times, and the scene was both unusual and affecting.

CLOCK STORY.

Had Not Run For Ten Years When Suddenly It Starts.

Chesterfield, Ind., March 26.—Mrs. Catherine Gold has an old, broken worn out clock, almost a century old, that has not run for 10 years, stopping at 1:55 p. m. While the family were seated about the large fireplace, the old clock suddenly, without warning, began to tick and when the hour hand reached 12, struck twice, after which it ran 10 minutes and stopped as suddenly as it started. Mrs. Gold is very much alarmed over the occurrence, and thinks it an omen of ill-luck or death. Mrs. Gold's husband died three weeks ago.

CUT OFF BY FLOODS.

Big Four Railroad Badly Damaged Near Laurel.

Laurel, Ind., March 26.—This place has been cut off from the world by high water nearly four days. The Big Four railway through this valley has been seriously damaged by floods. A large force of men was set to work repairing yesterday, but traffic may be delayed several days. Laurel has had no mail since last Tuesday evening. Serious damage has been done to crops, roads and bridges.

SAFETY VALVE BLEW OUT.

Portion of a Furniture Factory's Roof Carried Away.

Michigan City, Ind., March 26.—The safety valve attached to one of the boilers furnishing motive power for the Hitchcock chair works blew out, tearing away a section of the roof in its flight. The building quickly filled with steam, and many of the workmen only escaped by rapid flight. August Sudrow, fireman, was seriously injured about the eyes, and Mr. Horkins was disabled by flying debris.

ROASTED ALIVE.

Gasoline Stove Explodes and Burns Mrs. Emberlin to a Crisp.

South Bend, Ind., March 26.—Mrs. Alexander Emberlin, while working with a gasoline stove yesterday, was burned to a crisp by an explosion, scarcely an inch of her body not being roasted.

Dr. A. W. Street Dead.

Whiting, Ind., March 26.—Dr. A. W. Street, who organized the Alaskan Gold Mining company here is dead at his home. The doctor accompanied the expedition to Seattle, where he was taken with a fever and compelled to return. Dr. Street's party is at Dawson City. He was prominent in political and professional circles in Lake county and leaves a widow.

Charles Gregory Fined $100.

English, Ind., March 26.—Charles Gregory, accused of attempting to assassinate Joseph Mathers, was found guilty by the jury and fined $100 and six months in jail. Mathers lay at the point of death for several weeks. This case was preceded by one where two men were sent to jail for 30 days for stealing 12 bushels of clover seed.

Spencer Gets a New Trial.

English, Ind., March 26.—Ex-Trustee Willoughby Spencer, who was found guilty of embezzlement last week, has been granted a new hearing. It was proven that one of his jurors had prosecuted him in the fraternal lodge, which expelled him.

Coroner Wanted.

Auburn, Ind., March 26.—Dr. Hughes, the coroner, having abandoned his office and removed to Lagrange, the county commissioners can find no one willing to assume the duties of the vacated position. The office is not a lucrative one in this county.

Double Headed Chicken.

English, Ind., March 26. — Robert Brumfield has a chicken with two necks and heads. From the base of the neck, where they connect, the members appear perfect, and the little creature eats equally with each, picking alternately and never swallowing with both at once.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER

Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

Enlistments Progressing Satisfactorily.

Washington, March 26.—The enlistment of men for the naval service is progressing satisfactorily at the Washington navyyard, and a good class of men is being obtained. Heretofore the enlistments have been confined to ratings of machinists, seamen and ordinary seamen. On the recommendation of Lieutenant J. N. Robinson, the recruiting officer in charge of the rendezvous, the navy department has authorized him to include the enlistment of coal passers and firemen, so that now the enlistments comprehend every rating of the enlisted service.

Strengthening Fortifications of Porto Rico.

Washington, March 26.—Word has reached the navy department officials that the Spanish authorities have taken steps to supplement the existing fortifications at San Juan de Puerto Rico, the main port of the island of Porto Rico. The news is regarded as significant. Porto Rico is the only other possession which belongs to the Spanish government on this hemisphere besides Cuba. The officials of the department, while acknowledging information of foregoing character has reached them, are yet very chary about imparting any of the details to the press.

Weather.

Indiana and Ohio—Fair and warmer.

MARKET QUOTATIONS.

Prevailing Prices For Grain, Cattle and Provisions on March 25.

Indianapolis.

WHEAT—Weak; No. 2 red, 93c.

A Mother's Misery.

The story of this woman is the every day history of thousands who are suffering as she did; who can be cured as she was; who will thank her for showing them the way to good health.

The most remarkable thing about Mrs. Nellie J. Lord, of Strafford Corner, N. H., is that she is alive to-day.

No one, perhaps, is more surprised at this than Mrs. Lord herself. She looks back at the day when she stood on the verge of death and shudders. She looks ahead at a life of happiness with her children, her husband and her home with a joy that only a mother can realize.

Mrs. Lord is the mother of three children, two of whom are twins; until the twins came nothing marred the joy of her life.

Then she was attacked with heart failure and for a year was unable to attend to the ordinary duties of the home. In describing her own experience Mrs. Lord says:

"I had heart failure so bad I was often thought to be dead.

"With this I had neuralgia of the stomach so bad it was necessary to give me morphine to deaden the pain.

"Sometimes the doctors gave me temporary relief, but in the end it seemed as if my suffering was multiplied.

"Medicine did me no good and was but an aggravation.

"I was so thin my nearest friends failed to recognize me.

"No one thought I would live.

"I was in despair and thought that my days were numbered. My mother brought me Dr. Williams' Pink Pills for Pale People and the first box made me feel better. I continued the treatment and to-day I am well.

"When I commenced to take the pills I weighed 120 pounds; now I weigh 146 and feel that my recovery is permanent.

"I owe my happiness and my health to Dr. Williams' Pink Pills. My husband was benefited by them. I have recommended them to many of my friends and will be glad if any word of mine will direct others to the road of good health."

Dr. Williams' Pink Pills for Pale People have cured many cases of almost similar nature.

The vital elements in Mrs. Lord's blood were deficient. The haemoglobin was exhausted. She was unfit for the strain she was compelled to undergo. Her nervous system was shattered and her vitality dropped below the danger point.

A collapse was inevitable.

Dr. Williams' Pink Pills cured her by supplying the lacking constituents of health by filling the veins with blood rich in the requisite element of life. The heart resumed its normal action: the nervous system was restored to a state of harmony, and the neuralgic affection disappeared.

Dr. Williams' Pink Pills are sold by druggists everywhere, who believe them to be one of the most efficacious medicines the century has produced.

HISTORY REPEATING ITSELF.

In 1861 and 1862 when the Union was threatened and when the conditions were such that every loyal citizen should have laid aside party prejudice for the sake of his country, it was not uncommon, even in the north, to hear men condemn every act of President Lincoln. It was such influence that brought about the organization of anti-Union bands throughout the northern states and prolonged the war at the sacrifice of many lives and much property. Few men can be found in the north today who then took part with the agitators against the Union and against President Lincoln who will admit it. They are ashamed of their disloyalty.

Again when the country is on the verge of war we find men, conservative in most everything but party politics, criticising and condemning President McKinley in the same spirit that President Lincoln was criticised and condemned. They now seek to throw every obstacle possible in the way of a successful termination of the present grave situation. To that extent they are aiding our antagonists. But the time will come when they, like the critics' in '61 and '62, will be ashamed of their own course.

CHURCH NOTES.

SOME CLOSE CALLS.

INSTANCES OF NARROW ESCAPES TOLD BY RAILWAY MEN.

A Locomotive's Remarkable Jump—The Sleeping Car Passenger on a Rough Road—Trains That Left the Track and Returned Running at Full Speed.

There is no question that well authenticated cases are on record where disastrous wrecks of railroad trains have been averted by almost seeming miracles. James E. White, general superintendent of the railway mail service at Washington, relates the particulars of a remarkable jump of 28 feet made by a locomotive. As Mr. White tells the story, it was on the 1st of September, 1892, when a New York and Chicago mail train on the New York Central, which was behind time and running at a very high rate of speed, reached New Hamburg, where a 28 foot draw of a bridge was open, which open space it is claimed the engine cleared and landed safely on the main portion of the bridge, the rest of the train going down through the opening. While the engine, it is said, made the leap of 28 feet in safety, the engineer and firemen, not having time to jump, were both killed. John H. Cain, a postal clerk, was killed, and M. E. Towney, clerk in charge, was seriously injured, the other postal clerks escaping unhurt.

While none of the local railroad men knows of any locomotives that are as good jumpers as White's or that do the bounding jockey act, some of them know of miraculous and hairbreadth escapes. Carlton Paris of the old Ohio and Mississippi for many years and more recently with the B. and O. S. W. tells that he and Ed Swift a number of years ago were riding on a train over the Ohio and Big Sandy road when an accident was narrowly averted. But let Paris tell the story:

"The road was about the roughest at that time I had ever ridden over. There were only a few passengers on the train. Swift and I were in the forward coach talking to the conductor when the solitary sleeping car passenger came staggering in and said: 'Mr. Conductor, your road is so rough I can't sleep in my berth. I have been pitched out of my berth twice in the last quarter of an hour. There must be something the matter.'

"The conductor picked up his lantern and said, 'Come on, and I'll go back with you and see what's wrong.' Swift and I sat where we were talking, and very soon we saw that the bellcord was being very violently pulled and the engineer was whistling for brakes. The train finally came to a standstill, and Swift and I kept our seats and kept on talking. As, after five minutes or more, there were no signs of the train going ahead, we concluded to go back and see what was the cause of the delay.

"The conductor and trainmen were grouped about the sleeper with their lanterns, and we soon found out that the sleeper had left the track and had been running over the ties for how far we never knew. The night was pitch dark and it was raining very hard. It took the men at least three hours to get the sleeper on the rails again. The wheels were very near the end of the ties, and had the train gone 100 yards farther the sleeper would have been off the ties and over a high embankment."

Frank Martin of the Missouri, Kansas and Texas said:

"I remember of a disastrous wreck being almost miraculously averted on the Memphis and Little Rock road along about 1883. A passenger train was traveling at a high rate of speed when the engine threw a piece of rail about three feet long out of the track. This piece of rail was thrown at least 25 feet from the track. Strange as it seems, the tender, baggage car, coaches and sleepers went over this place where the rail was out and gained the rail again without one of the cars leaving the track except when the wheels went down on to the ties at one end of the broken rail, only to mount the rail again at the other end of the track. About all the inconvenience the passengers experienced was a slight shaking."

Assistant General Passenger Agent Ryan said:

"I remember two instances when the lives of engineers and firemen were saved by a seeming intervention of Providence. A number of years ago a new trestle was being put in, and false works had been erected to permit of the temporary passage of trains. The workmen had failed to put in some necessary bolts. The first train that came along was a freight. As soon as the engine struck the false work it gave way, and down went the engine. The fall was one of 50 feet, and in falling the engine made a complete revolution and alighted on the ground upon its wheels right side up, and the engineer and fireman both escaped injury, although they were probably pretty badly jarred by the fall.

"The other case I know of is that of a train running at a good speed when the engine ran into a large rock that had fallen on the track just at the mouth of a tunnel. The impact caused the tender to bend up from the rear end and form a protecting hood over the engineer and fireman in the locomotive cab, and they were uninjured. Had this not occurred, they would either have been badly injure or had their lives crushed out."

Another passenger man said yesterday:

"When I was a sleeping car conductor on the old Bee line, about 30 years ago, the train was late, and we were going along at a pretty lively gait. We were within about five miles of Indianapolis when the engine and four cars jumped the track, and we thought there would be a smash up, but before the train could be stopped every wheel was again on the rails without the least damage being done to any part of the train or any of the passengers, barring the fright we all had."—Cincinnati Enquirer.

Sympathetic Husbands.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, and the cost was $100 per bottle, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

"Mother's Friend" is sold by druggists, or expressed on receipt of one dollar.

Valuable book, "Before Baby is Born," mailed free on application.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

California is a Winter Resort

Every year California becomes more popular for those who desire to escape the rigors of the northern and eastern winters, and it is a peculiar fact that those who have visited this land of sunshine, fruit and flowers return annually to the Golden state. We in the east cannot realize the delights of gathering flowers during the winter months. Did you ever see a field of calla lillies in bloom? Yet is not an uncommon sight in California. Undoubtedly the most delightful route at this season of year to California is via the Southern Pacific Company's Sunset Route, and particular attention is called to the sunset limited annex service now operated between the Crescent City and the Golden Gate leaving New Orleans 8:40 p. m. every Tuesday and Saturday. Via this route one enters California at its most south eastern corner, passes through a valley on each side of which two mountains rear their snowy peaks. Once through this gateway the bounties of California are before you; the thriving farms with blooming orchards, meadows decked with scarlet poppies greet the eye in every direction.

For information regarding the Sunset Route as well as other routes to California apply to any agent of the Southern Pacific Company, or address W. G. Neimyer, Gen'l Western Agent 238 Clark St., Chicago, Ill.

Removal Sale!

The undersigned will sell at public auction, on

Wednesday March 30,

At the old Dannettell Homestead, at Chestnut Ridge, three miles south of Seymour the following property:

SINCE the primary Thursday a few Seymour democrats are engaged chiefly in pouring oil on the troubled waters.

A meeting of the democrats of Seymour and Jackson township is announced for next Monday evening at Armory Hall.

THE speech of Senator Thurston on the Cuban situation will be remembered as one of the most notable speeches made on that question.

Dun's Review of last week quotes the price of cash wheat at 1.04½ against 81¼ at the corresponding date of last year; corn 35½ against 30½ at the corresponding date of last year; lard, $5.40 against $4 50 last year; mess pork $10.25 against $9 last year, while in other farm products there is an equally striking advance. Yet there has been no free and unlimited coinage of silver meantime.

THE democrats of Van Buren township, Brown county, held a meeting the other day and passed a resolution calling on Congressman Griffith for an explanation of his failure to vote for the Teller resolution. They don't seem to have read his letter which plainly stated that when that matter was voted on our congressman was engaged in a law suit in Indiana.

OUR SODA COUNTER

Nobody sets a standard for us when it comes to soda water. We aim to make it better than the best Thousands of people were delighted with our soda water last year. We are going to please them more than ever this season.

If you are not coming our way you would better join the procession at once.

Bring us your prescription work. Always ready for business. Ring bell at door for night clerk.

TELEPHONE 100.

ALPHA COX, Seymour, Ind,

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at $2.00 to $2.50 per dozen and guaranteed them to be equal to any made in Seymour at $3.50 to $4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printingout paper, and tone in the same kind of gold and aristo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at $1.50 per dozen that by many are prefered to the higher priced platinums. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

RIVER RECEDING.

Danger Past Unless There is Another Rise of the River.

The river has fallen several feet and will soon be within its banks, unless there should be sufficient rain to to cause a second rise.

Much damage to fences and growing wheat has been done all along the river. The county will sustain a much lighter loss than a year ago.

The B. & O. S. W. began running trains through this morning. The most dangerous place now along their line seems to be at Shoals

The J. M. & I. road, while greatly damaged is being rapidly put in order. The worst place is at Rockford where some of the trestle work at the north end of the bridge is washed out. A large force of men are at work there and hope to get a train over probably by Sunday evening

Trains pass between Louisville and Indianapolis, going from Columbus down to North Vernon and from there to Seymour via B. & O. S. W.

The Southern Indiana is making rapid progress and will be running trains through the first of the week.

The Ohio river is still rising having reached the danger point last night No. 3 last night was the last train out of the Grand Central depot

Governor Mount's Health.

Gov. Mount has, upon the advice of his physician, retired to his farm in Montgomery county, where he will remain for some time, unless some emergency arises demanding his return to Indianapolis. The governor's physician says that he is on the verge of a collapse from nervous prostration, and that if he does not take a rest he will complet ly break down.

Look After Health.

On account of the great amount of rain and overflows farmers would do well to clear their fields of corn stalks and other rubbish and thereby prevent a vast amount of malaria that would otherwise result.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitional disease, and in order to cure it you must take internal remedies. Hall's Catarrh cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Citizens Meeting.

There will be a meeting held in the Methodist church in the interest of the Good Citizens League movement on Monday the 28th inst, at 7.30. 2t

Presiding Elder Rothweiler, of New Albany, came here to hold quarterly meeting today and Sunday at the German M. E. church.

Elder Thomas Jones went today to Vallonia on church business.

C. J. Leidorf is digging another cellar on his premises.

D. E Leiter, of Memphis, Tenn., came here today on church business.

Geo. B. Secord, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other." For sale by C. W. Milhous

Series N.

Co-Operative Building and Loan Association will be taken up onday April 4. All those desiring shares should apply to

dtf W. F. PETER, Sec'y.

Save Your Money.

On Monday April 4, 1898, the Co-operative building and loan association will open series N of its stock and parties wishing to secure stock in the series should see the secretary, W. F. Peter, at once.

This institution has demonstrated that it is conducted in a safe and conservative manner. It affords an opportunity for the man who can save only a small sum each week to lay it by regularly and in addition to the accumulations from the saving he will receive interest thereon. The money is loaned by the association on first mortgage security so that it is absolutely safe and guarantees the increase of the small savings made in the same proportion as the increase of the larger savings. Many a laboring man in the city has been able to pay for his own home through this institution and the way is open for many an other to do the same thing.

Do not fail to see the secretary, W F. Peter, at once, and take some stock in series N.

BUSINESS NOTES.

W. B. Dale is her from Louisville on business.

Toney Riehart killed a blacksnake racer five feet long yesterday.

W. H. Thomas made a business trip this morning to the county seat.

C. W. Cruson, of Scottsburg, came up to the city this morning on business.

Sol H. Davis came home last night from a business trip to Springfield, Ill.

A. M. Jones and E. E. Fillian of Bedford came here this forenoon on business.

James Ruddick yesterday finished planting his early potatoes on his farm.

S. J. Lewis, of Paducah, Ky., came to the city last evening on business with our orchardists.

Henry Hodapp last evening finished putting a new roof on the Uriah White's residence south of the city.

At Shoals this morning White river was within six feet of the high water mark of last year and rising three inches an hour.

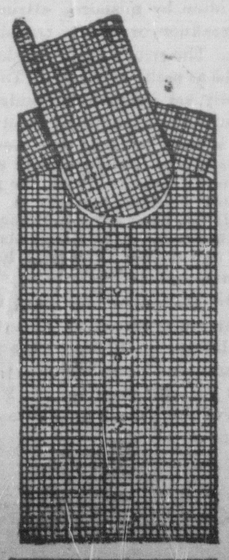

The Apple Dumpling.

Apple dumpling day was a red letter one in my boy's calendar. When I had such a dainty bit in my bag, it seldom staid there many minutes. Although I had dispatched a hearty breakfast before starting, out would come the dumpling. "Just to have a look at it and to see if it is as big as mother generally makes them," I would say to myself. Then I would turn it about and admire its size. From handling the dainty to tasting it was a sure process. "I'll have one little bite, only a nibble," I would say.

When I had got my tooth into that dumpling, Adam with his apple wasn't in it. It was a case of once bitten soon gone. Then I would hurry on to make up for my dawdling with only the hunk of barley bread in my wallet, the joys of the dumpling behind me, and before me the day's drudgery, with perhaps a thrashing thrown in.—"Life of Joseph Arch."

Commander Marix.

Washington, March 26? — Pending action of the report of the court of inquiry, Lieutenant Commander Marix, the judge advocate of the court, will be on special duty in the office of the judge advocate general. Here he will be available to supply any information that the president or the secretary of the navy may desire in connection with the proceedings of the court.

A Good Tailor

Makes perfect figures as well as perfect clothing. He makes prominent your good points and subdues all defects. He can't add so many inches to your height; but he can make you a suit of clothes which will make you appear taller.

We think we are good tailors—we have many customers and we satisfy them. It would certainly do no harm to call on us at any event.

Riehm, The Tailor.

Suppose you were ready to paint your house,
Suppose some one would say "Economy Mixed Paint" is good.
Suppose some one would say "Economy Mixed Paint" is not good.
Would you not feel interested in having this question decided on its merit and know positively who is right and who is wrong.
We have sold Economy Paint for the last twenty years in large quantities in the city and in the country.

Experience is the Best Teacher.

You will find any number of your acquaintances who will endorse it.
You will hear just what we say, that it gives entire satisfaction,
It is not expensive, is handy because it is ready mixed in any shade, in any quantity having a covering capacity and finish, superior to any in the market.
There may be instances where no paint will do well and is due to certain conditions not favorable to painting but where Economy is properly applied and directions complied with we will guarantee good results.
You can safely buy this Paint and get value received.

Henry Mellehcamp, a prosperous farmer of Hamilton township, was here yesterday and favored the REPUBLICAN with a pleasant business visit.

W. H. Reynolds and J. F. Keach, of Tampico, brought over two tons of poultry, eggs and butter to the city Friday and sold it to A. D. Eldridge.

Tired people are tired because they have exhausted their strength. The only way for them to get strong is to eat proper food.

But eating is not all. Strength comes from food after digestion. Digestion is made easy with Shaker Digestive Cordial.

People who get too tired, die. Life is strength. Food is the maker of strength, Food is not food until it is digested.

Tired, pale, thin, exhausted, sick sufferers from indigestion, can be cured by the use of Shaker Digestive Cordial.

It will revive their spent energies refresh and invigorate them, create new courage, endurance and strength, all by helping their stomachs to digest their food.

It aids nature, and this is the best of it. It gives immediate relief and, with perseverance, permanently cures.

At druggists. Trial bottle 10 cents.

DIED.

A young man named Hobenie, of near Tampico, died Friday morning March 25, 1898, with diabetes aged about seventeen years.

After using a 10 cent trial size of Ely's Cream Balm you will be sure to buy the 50 cent size. Cream Balm has no equal in curing catarrh and cold in head. Ask your druggist for it or send 10 cents to us.

ELY BROS., 56 Warren st N. Y. City

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clarke, 341 Shawmut Ave. Boston.

Another Train.

The Bedford Mail says that early in April the Southern Indiana road will put on a train to run between Washington and Seymour,

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good alterative and tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's Drug Store. 50 cents per bottle.

CASTORIA.

John W. Myers, who has been on trial for embezzling $19,000 from Starke county, O., while deputy treasurer, has been found not guilty by a jury.

'Squire Evans of Osgood, Ind., has been placed under bonds on complaint of a Louisville firm, accusing him of having obtaining goods by false pretense.

Fifty girls in the gum works at Salem, O., have gone on strike because the firm insist they shall sign a contract not to become members of the Federation of Labor.

FORMER ILLINOISAN.

Edward Stempel Charged With Deadly Assault by German Authorities.

Berlin, March 26.—The police have issued a circular containing a personal description of Edward Stempel, described as an American millionaire, born at Rock Island, Ills., and lately residing in a suburb of Berlin, asking for his arrest on the charge of committing a deadly assault upon a fellow passenger on a train. Stempel is said to be stopping at Nice with his family.

CASTLE HALL.

Grand Lodge of K. of P. Will, It Is Said, Apply For a Receiver.

Indianapolis, March 26.—The grand lodge K. of P. of Indiana is taking steps to protect its property interest in Castle Hall association, and will some time today, it is said, file an application for a receiver, alleging mismanagement. Valuable real estate owned by the association was recently sold for delinquent taxes.

Welsbach Light Company Wins Its Suit.

New York, March 26.—Judge Townsend of the United States circuit court has handed down an opinion in the case of the Welsbach Light company against the Sunlight Incandescent Gas Lamp company in favor of the Welsbach company, granting an injunction restraining the Sunlight company from manufacturing or selling incandescent gas lamp mantels and ordering an accounting. The suit was brought by the Welsbach company for an infringement of patent.

CIGARETTE MEASURE.

Acting Governr Worthington Vetoes the Kentucky Law.

Frankfort, Ky., March 26.—Lieutenant and Acting Governor Worthington has vetoed the Walker anticigarette bill. The measure contained stringent penalties against the manufacture, sale or use of cigarettes or cigarette material or having these articles in one's possession. It was backed by the W. C. T. U., but warmly opposed by the tobacco interests of the state.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptable for the urine, and as such it is not liable to any form of disease except by one of two ways The first way is from imperfect action of the kidneys, The second way is from careless local treatment of other diseases

CHIEF CAUSE.

Unhealth urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed o female weakness or womb trouble of some sort. The error is easily made and and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney, and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and and pamphlet, both sent free by mail, upon receipt of three two cent stamp to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

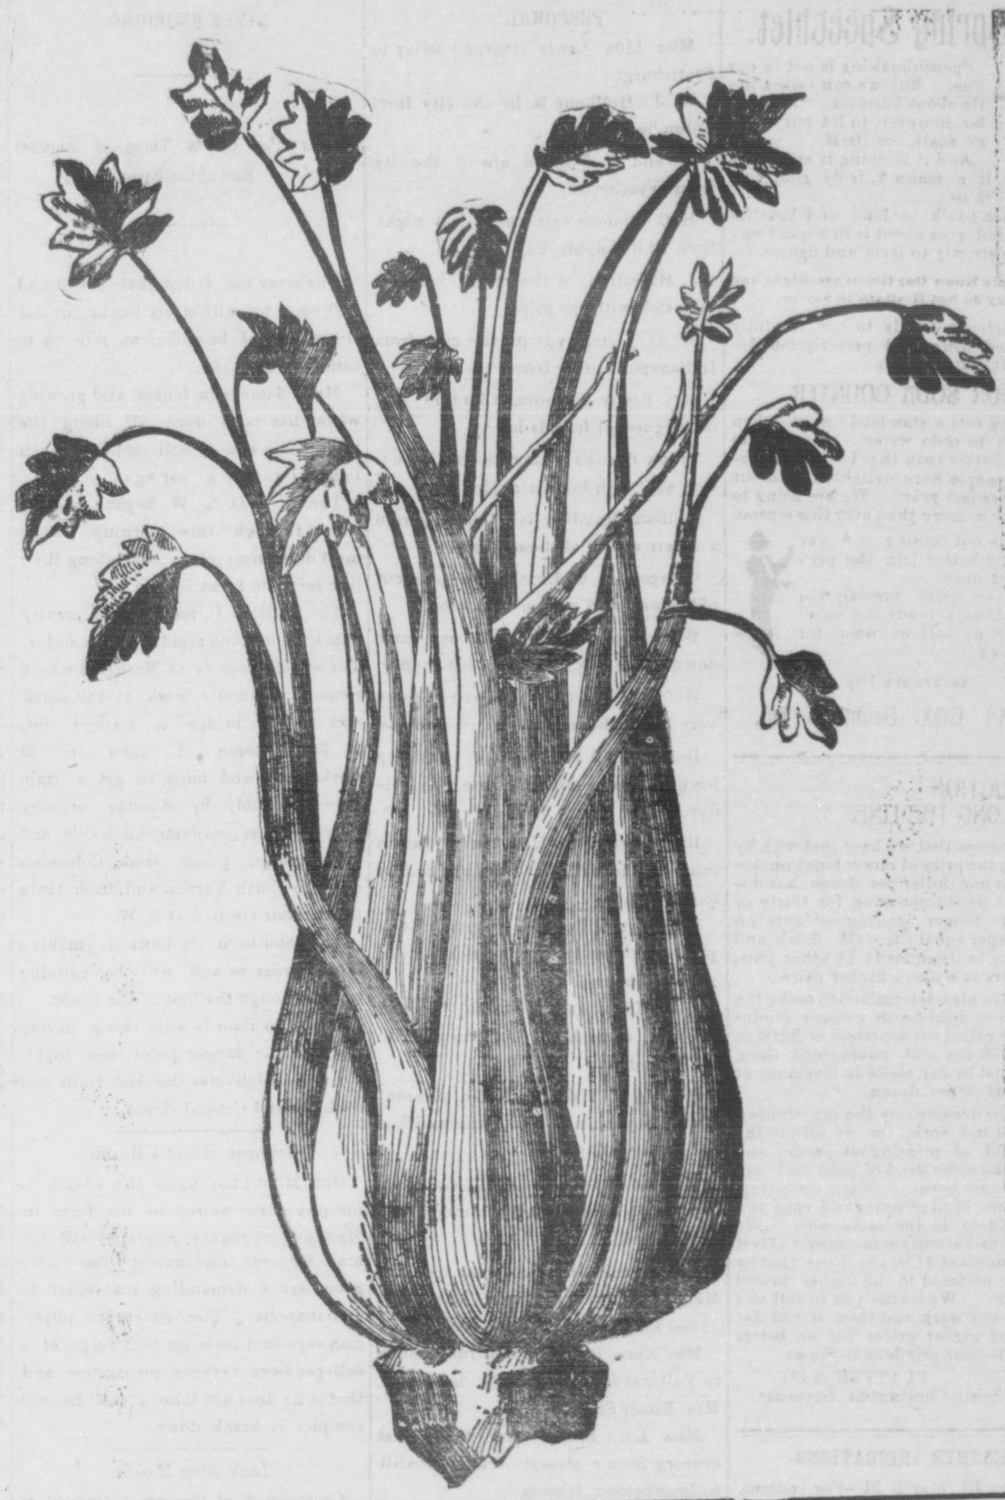

CASTORIA.

The fac-simile signature of Chas. H. Fletcher. Is on every wrapper.

MARCH---APRIL---MAY

For Blood and Nerves in the Spring

Paine's Celery Compound.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by C. W. Milhous.

Give the Children a Drink

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about [illegible]

Rev. E Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. He says; "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by C. W. Milhous.

Many People Cannot Drink

Coffee at night, It spoils their sleep. You can drink Grain O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect Drink. Made from pure grains. Get a package from your grocer today. Try it in place of coffee.—15 and 25c.
